It helps you in starting your essays, ending your essays, or provides pre-written material to inspire your thesis. Yes, you got it to write.

First published in 1938, 'Anthem' is a dystopian fiction novel by British writer Ayn Rand. It takes place at some unspecified future date when mankind has entered another dark age. Technological advancement is now carefully planned and the concept of individuality has been eliminated.

The simple, humane hero, Joshua, arrives in a village torn by partisan strife where his philosophy of caring and acceptance gains praise from some and hostility from others bent on bloodshed

This edition of Álvar Núñez Cabeza de Vaca's *Relación* offers readers Rolena Adorno and Patrick Charles Pautz's celebrated translation of Cabeza de Vaca's account of the 1527 Pánfilo de Narváez expedition to North America. The dramatic narrative tells the story of some of the first Europeans and the first-known African to encounter the North American wilderness and its Native inhabitants. It is a fascinating tale of survival against the highest odds, and it highlights Native Americans and their interactions with the newcomers in a manner seldom seen in writings of the period. In this English-language edition, reproduced from their award-winning three-volume set, Adorno and Pautz supplement the engrossing account with a general introduction that orients the reader to Cabeza de Vaca's world. They also provide explanatory notes, which resolve many of the narrative's most perplexing questions. This highly readable translation fires the imagination and illuminates the enduring appeal of Cabeza de Vaca's experience for a modern audience.

Those who've heard T. R. Reid's weekly commentary on National Public Radio or read his far-flung reporting in *National Geographic* or *The Washington Post* know him to be trenchant, funny, and cutting-edge, but also erudite and deeply grounded in whatever subject he's discussing. In *Confucius Lives Next Door* he brings all these attributes to the fore as he examines why Japan, China, Taiwan, and other East Asian countries enjoy the low crime rates, stable families, excellent education, and civil harmony that remain so elusive in the West. Reid, who has spent twenty-five years studying Asia and was for five years *The Washington Post*'s Tokyo bureau chief, uses his family's experience overseas—including mishaps and misapprehensions—to look at Asia's "social miracle" and its origin in the ethical values outlined by the Chinese sage Confucius 2,500 years ago. When Reid, his wife, and their three children moved from America to Japan, the family quickly became accustomed to the surface differences between the two countries. In Japan, streets don't have names, pizza comes with seaweed sprinkled on top, and businesswomen in designer suits and Ferragamo shoes go home to small concrete houses whose washing machines are outdoors because there's no room inside. But over time Reid came to appreciate the deep cultural differences, helped largely by his courtly white-haired neighbor Mr. Matsuda, who personified ancient Confucian values that are still dominant in Japan. Respect, responsibility, hard work—these and other principles are evident in Reid's witty, perfectly captured portraits, from that of the school his young daughters attend, in which the students maintain order and scrub the floors, to his depiction of the corporate ceremony that welcomes new employees and reinforces group unity. And Reid also examines the drawbacks of living in such a society, such as the ostracism of those who don't fit in and the acceptance of routine political bribery. Much Western ink has been spilled trying to figure out the East, but few journalists approach the subject with T. R. Reid's familiarity and insight. Not until we understand the differences between Eastern and Western perceptions of what constitutes success and personal happiness will we be able to engage successfully, politically and economically, with those whose moral center is governed by Confucian doctrine. Fascinating and immensely readable, *Confucius Lives Next Door* prods us to think about what lessons we might profitably take from the "Asian Way"—and what parts of it we want to avoid.

The bestselling coming-of-age classic, acclaimed by critics, beloved by readers of all ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. *The House on Mango Street* is the remarkable story of Esperanza Cordero, a young Latina girl growing up in Chicago, inventing for herself who and what she will become. Told in a series of vignettes—sometimes heartbreaking, sometimes deeply joyous—Sandra Cisneros' masterpiece is a classic story of childhood and self-discovery. Few other books in our time have touched so many readers.

Exiled to Siberia In June 1942, the Rudomin family is arrested by the Russians. They are "capitalists -- enemies of the people." Forced from their home and friends in Vilna, Poland, they are herded into crowded cattle cars. Their destination: the endless steppe of Siberia. For five years, Ester and her family live in exile, weeding potato fields and working in the mines, struggling for enough food and clothing to stay alive. Only the strength of family sustains them and gives them hope for the future.

"I cannot imagine a better guide to the transition between school and undergraduate geography than this short, informative and confidently-argued book. Written without fuss but based on solid learning and clear thinking, it tackles head-on a question many professional academic geographers would rather avoid." - Alisdair Rogers, University of Oxford "A beautiful little book that helps to introduce the core concepts of geography and provides an ideal framework for relating other fields of knowledge and academia." - Stefan Zimmermann, University of Osnabruck *What is Geography?* Geography is a fundamental fascination with, and a crucial method for, understanding the way the world works. This text offers readers a short and highly accessible account of the ideas and concepts constituting geography. Drawing out the key themes that define the subject, *What is Geography?* demonstrates how and why these themes - like environment and geopolitics- are of fundamental importance. Including discussion of both the human and the natural realms, the text looks at key themes like environment, space, and place - as well as geography's methods and the history of the discipline. Introductory but not simplified, *What is Geography?* will provide students with the ability to understand the history and context of the subject without any prior knowledge. Designed as a key transitional text for students entering undergraduate courses, this book will be of interest to all readers interested in and intrigued by the "geographical imagination".

Pulitzer prize–winner Chris Hedges charts the dramatic and disturbing rise of a post-literate society that craves fantasy, ecstasy and illusion. Chris Hedges argues that we now live in two societies: One, the minority, functions in a print-based, literate world, that can cope with complexity and can separate illusion from truth. The other, a growing majority, is retreating from a reality-based world into one of false certainty and magic. In this “other society,” serious film and theatre, as well as newspapers and books, are being pushed to the margins. In the tradition of Christopher Lasch’s *The Culture of Narcissism* and Neil Postman’s *Amusing Ourselves to Death*, Hedges navigates this culture — attending WWF contests as well as Ivy League graduation ceremonies — exposing an age of terrifying decline and heightened self-delusion.

Tracing the history of Asia between A.D. 700 and 1500, a critical study describes the important influence of Asia's great civilization on the West, as traveling merchants, scholars, philosophers, and religious figures brought the wisdom of China and the Middle East to medieval Europe during the Dark Ages.
