When the air conditioner in your 2003 Kia Sedona starts blowing hot air, you likely have a freon leak. Recharging the freon in your AC system is an inexpensive and easy first step to restoring the cooling capacity of your A/C system. Most refrigerants include a leak sealer that will seal small leaks in addition to filling the R134a refrigerant.

I bought a used 2002 kia sedona in Jan 2006. I always suspected that the AC wasn't as cold as it should be but my spouse and father in law kept telling me that it just didn't seem like it due to all the open space that needed to be cooled. Getting toward the end of summer 2007 and I seem to have warm air coming out of the vents.
