The 62TE six-speed automatic was launched in 2007, with the 3.5 liter V6 on the Sebring and Avenger, and with the 4.0 liter Pacifica. It was later used on minivans, the 200 (with both engines), and the Ram ProMaster. The 62TE six-speed automatic transaxle was based on Chrysler's existing four-speed automatic, with two new primary gear ratios and a secondary ratio for passing at highway speeds. The first gear ratio was much lower, to increase standing-start acceleration; and the ...
