Though cold-water plumbing had been installed in 1902 (toilets remained communal) and, in 1920, electricity (but still no heat), 97 Orchard was by then a shadow of its former self, down to 25 residents from a high of 111 as immigration slowed. The neighborhood had become haunted, as landlords couldn't or wouldn't keep up properties, falling into sorry disrepair when not tumbledown, burnt-out, abandoned.

In 97 Orchard, Jane Ziegelman explores the culinary life that was the heart and soul of New York's Lower East Side around the turn of the twentieth century—a city within a city, where Germans, Irish, Italians, and Eastern European Jews attempted to forge a new life. Through the experiences of five families, all of them residents of 97 Orchard Street, Ziegelman takes readers on a vivid and unforgettable tour, from impossibly cramped tenement apartments, down dimly lit stairwells, beyond the front stoops where housewives congregated, and out into the hubbub of the dirty, teeming streets. Ziegelman shows how immigrant cooks brought their ingenuity to the daily task of feeding their families, preserving traditions from home but always ready to improvise. 97 Orchard lays bare the roots of our collective culinary heritage.

For Dolkart, the experience of being raised in a tenement became a metaphor for the life that was afforded countless thousands of other immigrant children growing up in Lower Manhattan during the past century and more. This book is a lasting tribute to the legacy of immigrants and their children, who were part of the transformation of New York City and the fabric of everyday American urban life.

Life on the Lower East Side was bustling. Immigrants from many European countries had come to make a better life for themselves and their families in the United States. But the wages they earned were so low that they could afford only the most basic accommodations—tenements. Unfortunately, there were few laws protecting the residents of tenements, and landlords took advantage of this by allowing the buildings to become cramped and squalid. There was little the tenants could do; their only other choice was the street. Though most immigrants struggled in these buildings, many overcame a difficult start and saw generations after them move on to better apartments, homes, and lives. Raymond Bial reveals the first, challenging step in this process as he leads us on a tour of the sights and sounds of the Lower East Side, guiding us through the dark hallways, staircases, and rooms of the tenements.

2020 American Book Fest Best Book Awards Finalist in the U.S. History category In the wee hours of May 15, 1902, three thousand Jewish women quietly took up positions on the streets of Manhattan's Lower East Side. Convinced by the latest jump in the price of kosher meat that they were being gouged, they assembled in squads of five, intent on shutting down every kosher butcher shop in New York's Jewish quarter. What was conceived as a nonviolent effort did not remain so for long. Customers who crossed the picket lines were heckled and assaulted, their parcels of meat hurled into the gutters. Butchers who remained open were attacked, their windows smashed, stocks ruined, equipment destroyed. Brutal blows from police nightsticks sent women to local hospitals and to court. But soon Jewish housewives throughout the area took to the streets in solidarity, while the butchers either shut their doors or had them shut for them. The newspapers called it a modern Jewish Boston Tea Party. The Great Kosher Meat War of 1902 tells the twin stories of mostly uneducated female immigrants who discovered their collective consumer power and of the Beef Trust, the midwestern cartel that conspired to keep meat prices high despite efforts by the U.S. government to curtail its nefarious practices. With few resources and little experience but a great deal of steely determination, this group of women organized themselves into a potent fighting force and, in their first foray into the political arena in their adopted country, successfully challenged powerful vested corporate interests and set a pattern for future generations to follow.

In this first comprehensive overview of the intersection of immigration law and the First Amendment, a lawyer and historian traces ideological exclusion and deportation in the United States from the Alien Friends Act of 1798 to the evolving policies of the Trump administration. Beginning with the Alien Friends Act of 1798, the United States passed laws in the name of national security to bar or expel foreigners based on their beliefs and associations—although these laws sometimes conflict with First Amendment protections of freedom of speech and association or contradict America's self-image as a nation of immigrants. The government has continually used ideological exclusions and deportations of noncitizens to suppress dissent and radicalism throughout the twentieth and twenty-first centuries, from the War on Anarchy to the Cold War to the War on Terror. In Threat of Dissent—the first social, political, and legal history of ideological exclusion and deportation in the United States—Julia Rose Kraut delves into the intricacies of major court decisions and legislation without losing sight of the people involved. We follow the cases of immigrants and foreign-born visitors, including activists, scholars, and artists such as Emma Goldman, Ernest Mandel, Carlos Fuentes, Charlie Chaplin, and John Lennon. Kraut also highlights lawyers, including Clarence Darrow and Carol Weiss King, as well as organizations, like the ACLU and PEN America, who challenged the constitutionality of ideological exclusions and deportations under the First Amendment. The Supreme Court, however, frequently interpreted restrictions under immigration law and upheld the government's authority. By reminding us of the legal vulnerability foreigners face on the basis of their beliefs, expressions, and associations, Kraut calls our attention to the ways that ideological exclusion and deportation reflect fears of subversion and serve as tools of political repression in the United States.

Describes the lives of four families that lived in what is now the Lower East Side Tenement National Historic Site, and places their experiences in context.
