The new series of Crash Course continues to provide readers with complete coverage of the MBBS curriculum in an easy-to-read, user-friendly manner. Building on the success of previous editions, the new Crash Courses retain the popular and unique features that so characterised the earlier volumes. All Crash Courses have been fully updated throughout. More than 90 illustrations present clinical, diagnostic and practical information in an easy-to-follow manner Friendly and accessible approach to the subject makes learning especially easy Written by students for students - authors who understand exam pressures Contains 'Hints and Tips' boxes, and other useful aide-memoires Succinct coverage of the subject enables 'sharp focus' and efficient use of time during exam preparation Contains a fully updated self-assessment section - ideal for honing exam skills and self-testing Self-assessment section fully updated to reflect current exam requirements Contains 'common exam pitfalls' as advised by faculty Crash Courses also available electronically! Online self-assessment bank also available - content edited by Dan Horton-Szar! Now celebrating over 10 years of success - Crash Course has been specially devised to help you get through your exams with ease. Completely revised throughout, the new edition of Crash Course is perfectly tailored to meet your needs by providing everything you need to know in one place. Clearly presented in a tried and trusted, easy-to-use, format, each book in the series gives complete coverage of the subject in a no-nonsense, user-friendly fashion. Commencing with 'Learning Objectives', each chapter guides you succinctly through the topic, giving full coverage of the curriculum whilst avoiding unnecessary and often confusing detail. Each chapter is also supported by a full artwork programme, and features the ever popular 'Hints and Tips' boxes as well as other useful aide-memoires. All volumes contain an up-to-date self-assessment section which allows you to test your knowledge and hone your exam skills. Authored by students or junior doctors - working under close faculty supervision - each volume has been prepared by someone who has recently been in the exam situation and so relates closely to your needs. So whether you need to get out of a fix or aim for distinction Crash Course is for you!!

This is the first comprehensive, accurate introductory text on hematology for medical students. The many topics of hematology are covered and each chapter begins with an overview and then proceeds to an outline of key concepts for each specialty area. The text includes simple line drawings, algorithms and color plates, and features bulleted points and bolded key words. With its depth, and concise format, this book serves as a thorough text, general reference, and a review for the USMLE Step 1 exam, and is a valuable tool for the internal medicine clerkship rotation and exam. Compatibility: BlackBerry(R) OS 4.1 or Higher / iPhone/iPod Touch 2.0 or Higher /Palm OS 3.5 or higher / Palm Pre Classic / Symbian S60, 3rd edition (Nokia) / Windows Mobile(TM) Pocket PC (all versions) / Windows Mobile Smartphone / Windows 98SE/2000/ME/XP/Vista/Tablet PC

Oncology & Haematology is a new e-book in a collection of subject-themed e-books containing relevant key articles from Medicine. The e-books provide a perfect source of revision for post-graduate exams in clinical medicine and portfolio material for life-long learning. As well as mapping to the UK Core Medical Training curriculum, these e-books also enable anyone with a short-term interest in a specific area to buy individual articles at a price-point that will give affordable access to all readers (from medical students to GPs and practitioners in related areas). The quality of user experience on mobiles, tablets and laptops will be an added bonus for learning on the move. The whole board has been involved in the creation of this content and are therefore listed as authors on all the e-books. In addition we extend our warm thanks for their contribution to these e-books to the past Chairman Allister Vale (who stepped down from the board in 2015) and to John Mucklow, who stepped down in 2016. Derek Waller, on behalf of the Editorial Board About the Journal The parent journal (www.medicinenjournal.co.uk) is a rolling, continuously updated review of clinical medicine over a 4-year cycle covering all the important topics for core medical training. Its Editorial Board comprises some of Europe's most influential specialists. The journal's articles are refreshed, updated, augmented or replaced as appropriate each time the subject is due for revision to provide a concise overview of knowledge and practice core to the curriculum. Each article is written by invited experts and overseen by the relevant subject specialist on the Board. A trainee representative on the Board ensures relevance and accessibility for exam candidates. "At once evocative and suggestive, this exemplary book gives me hope that educators and scholars across the world will seize the opportunity to self-reflect and enlarge and enrich both their research and their practice in ways that will markedly contribute to the revitalisation of the higher learning in the twenty-first century. The urgency of the need for revitalisation of both research and practice in this domain of inquiry cannot be overstated." Prof Clifton Conrad ? University of Wisconsin-Madison, USA

A concise full-color review of the mechanisms of blood diseases and disorders - based on a Harvard Medical School hematology course 4 STAR DOODY'S REVIEW! "This is a superb book. Deceptively small, yet packs a wallop. The emphasis on principles instead of practice is welcome...The text is clear, concise, and surprisingly approachable for what could have been a very dense and dry discussion. I could not put this book down and read it entirely in one sitting. When was the last time anyone found a hematology textbook so riveting?" "Doody's Review Service Hematological Pathophysiology is a well-illustrated, easy-to-absorb introduction to the physiological principles underlying the regulation and function of blood cells and hemostasis, as well as the pathophysiologic mechanisms responsible for the development of blood disorders. Featuring a strong emphasis on key principles, the book covers diagnosis and management primarily within a framework of pathogenesis. Authored by world-renowned clinician/educators at Harvard Medical School, Hematological Pathophysiology features content and organization based on a hematology course offered to second year students at that school. The book is logically divided into four sections: Anemias and Disorders of the Red Blood Cell, Disorders of Hemostasis and Thrombosis, Disorders of Leukocytes, and Transfusion Medicine; it opens with an important overview of blood and hematopoietic tissues. Features Succinct, to-the-point coverage that reflects current medical education More than 200 full-color photographs and renderings of disease mechanisms and blood diseases Each chapter includes learning objectives and self-assessment questions Numerous tables and diagrams encapsulate important information Incorporates the feedback of 180 Harvard medical students who reviewed the first draft -- so you know you're studying the most relevant material possible

Haematology at a Glance provides a concise and accessibleintroduction to haematology. It follows the easy-to-use 'at aGlance' format of double-page spreads comprising clear, memorablediagrams illustrating the key facts and essential textualinformation. It starts with an explanation of normal blood cellsand routine laboratory tests. It then reviews a wide range of blooddisorders. This new edition of Haematology at a Glance: Contains full colour throughout Presents the key facts accompanied by clear diagrams, photosand images Highlights the most recent developments in the field, includingcoverage of transplantation technology Includes new chapters on : The side effects of drug treatment Pregnancy and neonatological aspects of haematology Practical procedures Haematology at a Glance will appeal to medical students, juniordoctors on foundation programmes, haematology technicians andnursing and other health care students with an interest inhaematology. Reviews of last edition "Haematology at a Glance is a valuable book for primarylearning as well as for revision, and I am sure that I will referto it for years to come." The Royal College of Pathologists Bulletin "It really is great, if you don't believe me, pickit up and look yourself," Black Bag - Bristol Medical School Gazette
