Every month, we produce detailed and timely analysis of the latest labour market statistics. We examine what the figures tell us both about the health of our labour market, and what they mean for peoples ' experience of work, with a particular focus on groups facing labour market disadvantage. Analysis for October 2020

~~Labour market analysis—Learning and Work Institute~~

Last Modified Date: October 13, 2020. Labor market analysis is the economic study of the dynamic relationship between workers and employers in the regional, national, or global labor market. It involves a variety of factors from employment rates to wages, per capita income, and education levels. While governments use the practice of labor market analysis to gauge the effects of economic policies, it is often also used by business and academia from a

~~LABOUR MARKET ASSESSMENT – IRAQ MISSION~~

A Labour Market Impact Assessment (LMIA) is a document that an employer in Canada may need to get before hiring a foreign worker. A positive LMIA will show that there is a need for a foreign worker to fill the job. It will also show that no Canadian worker or permanent resident is available to do the job.

~~What is a Labour Market Impact Assessment?~~

This comes in the form of a Labour Market Impact Assessment (LMIA), formerly known as a Labour Market Opinion (LMO). In order to receive a positive LMIA, the Canadian government employee reviewing an application must determine that the hiring of a foreign worker will have a positive or neutral effect on the Canadian labour market.
