~~A R Drone Developer Guide~~

Hi, The guide you refer to is for the "SDK2" (AR.Drone + AR.Drone 2.0). The latest version can be found in the .zip package of the SDK available here. If you look for the documentation of the new SDK3 (for Bebop, Jumping Sumo, Rolling spider and newer devices), it is available online here. The documentation is written with the Bebop (or Bebop 2) in mind, but most of the content is also ...

SDR dongle, an LCD a buzzer and a little bit of coding in Python and C has created a very useful alarm for drone and RC model aircraft operators , " explains long-time Slashdot reader NewtonsLaw . The device allows users to set an "alarm" perimeter around their operating area and automatically alert them whenever a manned aircraft with ADSB fitted intrudes into that area.
