~~Techniques~~ specific type of project management of small-scale projects. These projects are characterised by factors such as short duration; low person hours; small team; size of the budget and the balance between the time committed to delivering the project itself and the time committed to managing the project. They are otherwise unique, time delineated and require the delivery of a final output in the same way as large-scale projects.

thus, our results may not generalize to large-scale land-sharing systems.

Furthermore, rather than concluding that land sparing is generally superior to land sharing, we suggest that the optimal approach depends on the crop, local climate, and existing land-use patterns.

~~Introduction to Organic Lab Technology: Small Scale ...~~

Small-scale fisheries (SSF) have long been overshadowed by the concerns and perceived importance of the industrial sector in fisheries science and policy. Yet in recent decades, attention to SSF is on the rise, marked by a proliferation of scientific publications, the emergence of new global policy tools devoted to the small-scale sector, and concerted efforts to tally the
