Forex Trading Strategy Definition - Investopedia

In finance, a trading strategy is a fixed plan that is designed to achieve a profitable return by going long or short in markets. The main reasons that a properly researched trading strategy helps are its verifiability, quantifiability, consistency, and objectivity. For every trading strategy one needs to define assets to trade, entry/exit points and money management rules. Bad money management can make a potentially profitable strategy unprofitable. Trading strategies are based on fundamental o

Trading strategy - Wikipedia

A world where traders pick simplicity over the complex world of technical indicators and automated trading strategies. When you remove all the clutter from the trades, all that is remaining is the price.
