Where To Download Abap Selection Screen Guide

Sometimes users might want to have more flexible functionality to select the data from the view/table viz., a selection-screen to select the data. Add selection-screen to TMG of a table/view: We all agree to the fact that the TMG function group should never be

Where To Download Abap Selection Screen Guide

manually altered & any modifications should be handled via TMG events .

Using selection-screen in Table Maintenance Generator ...
Selection Screen. The second type of dialog objects in ABAP is a

Where To Download Abap Selection Screen Guide

selection screen. What is its main difference from classic selection screens? The thing is pretty self-explanatory and lies in the name: they are used for selection of data from database. Classic screens can carry this function too but selection screens do this

Where To Download Abap Selection Screen Guide

significantly better and here is why: they do not need to be created in advance but are rather declared via a set of declarative statements.
