**Aftershock 2nd (second) edition: David Wiedemer**...

"Aftershock Version 2" (2011) has updated itself and as many reviewers have said, there is a great deal of self-promotion here. Plus they left out the infamous/famous last chapter with its dire (I'm guessing) predictions of our economy post-Aftershock! Why?

A practical guide to preparing for the next phase of the financial meltdown
From the authors who were the first to predict Phase I of our current economic downturn-in their landmark 2006 book, America's Bubble Economy-comes their insightful sequel discussing their predictions for the next phase of the Bubble Economy. It may seem like the worst has come and gone, but it hasn't. With their proven track record of accurate predictions-which most financial professionals and economists missed-the authors explain how and why the next phase of the financial meltdown is about to hit. Things are not going back to how they were before. Instead, we are moving through uncharted territory, with new challenges and opportunities that few people can anticipate. Written in a straightforward and accessible style, Aftershock shows readers how to seek safety and profits in these dynamic economic conditions. Discusses how to protect assets, businesses, and jobs before and during the second wave of financial meltdown
Provides clear and accurate advice on how to profit from the collapsing bubbles
Offer focused guidance regarding real estate, which will continue to be a pressing concern for many
The authors' first book was chosen by Kiplinger's as one of the 30 Best Business Books of 2006, and its accuracy has been hailed by Paul Farrell of Dow Jones MarketWatch when he said "America's Bubble Economy's Predictions, though ignored, were accurate."
Don't miss out on these time tested author's proven advice for how to mange your money during the coming financial meltdown.

When an earthquake strikes San Francisco, forensics expert Jessie Teska faces her biggest threat yet in this explosive new mystery from the New York Times bestselling duo There's a body crushed under a load of pipes on a San Francisco construction site, and medical examiner Dr. Jessie Teska is on call. So it's her job to figure out who it is—and her headache when the autopsy reveals that the death is a homicide staged as an accident. Jessie is hot on the murderer's trail, then an earthquake sends her and her whole city reeling. When the dust clears, her case has fallen apart and an innocent man is being framed. Jessie knows she's the only one who can prove it, and she races to piece together the truth—before it gets buried and brings her down in the rubble. With Melinek and Mitchell's trademark blend of propulsive prose, deft plotting and mordant humor, this rollicking new installment in the Jessie Teska Mystery series will shake you up and leave you rattled.

A passionate and insightful account by a leading historian of Haiti that traces the sources of the country's devastating present back to its turbulent and traumatic history
Even before the 2010 earthquake destroyed much of the country, Haiti was known as a benighted place of poverty and corruption. Maligned and misunderstood, the nation has long been blamed by many for its own wretchedness. But as acclaimed historian Laurent Dubois makes clear, Haiti's troubled present can only be understood by examining its complex past. The country's difficulties are inextricably rooted in its founding revolution—the only successful slave revolt in the history of the world; the hostility that this rebellion generated among the colonial powers surrounding the island nation; and the intense struggle within Haiti itself to define its newfound freedom and realize its promise. Dubois vividly depicts the isolation and impoverishment that followed the 1804 uprising. He details how the crushing indemnity imposed by the former French rulers initiated a devastating cycle of debt, while frequent interventions by the United States—including a twenty-year military occupation—further undermined Haiti's independence. At the same time, Dubois shows, the internal debates about what Haiti should do with its hard-won liberty alienated the nation's leaders from the broader population, setting the stage for enduring political conflict. Yet as Dubois demonstrates, the Haitian people have never given up on their struggle for true democracy, creating a powerful culture insistent on autonomy and equality for all. Revealing what lies behind the familiar moniker of "the poorest nation in the Western Hemisphere," this indispensable book illuminates the foundations on which a new Haiti might yet emerge.

From the publisher of the critically acclaimed Mighty Morphin Power Rangers comic series comes an original story set in the universe of the upcoming Power Rangers feature film! This explosive, all-new tale picks up immediately after the events of Lionsgate's highly anticipated movie, in theaters March 24, 2017. See the film, then deep dive into the continued adventures of Jason, Kimberly, Trini, Zack, and Billy!Written by Ryan Parrott (Star Trek: Starfleet Academy, Batman: Gates of Gotham) and illustrated by artist Lucas Werneck. Features an exclusive Previews cover edition by Greg Smallwood (Moon Knight).

Never mix business with pleasure. Never bring politics into the bedroom. In a way I did both when I took Jackson Rutledge as a lover. I can't say I wasn't warned. Two years later, he was back. Walking into a deal I'd worked hard to close. Under the tutelage of Lei Yeung, one of the sharpest businesswomen in New York, I had picked up a thing or two since Jax walked away. I wasn't the girl he once knew, but he hadn't changed. Unlike the last time we'd drifted into each other's lives, I knew exactly what I was dealing with... and how addictive his touch could be. The inner circle of glamour, sex, and privilege was Jax's playground—but this time, I knew the rules of the game. In the cutthroat business world, one adage rules all: keep your enemies close and your ex-lovers closer...

A short text (68 pages) that puts the tragic events of 9/11 into political context. The focus is on how the American political system will respond to the challenges posed by the 9/11 terrorist attacks. The author is interested in how the major institutions, such as the Presidency, the Congress, and our system of civil liberties and rights is changing to respond to this challenge. The book is well grounded in historical context as well, considering how other major crises have been handled. Other areas typically covered in an American government course, such as the media, religion, and public opinion are emphasized as well. Free when bundled.

"A new series that promises to be just as engrossing [as Frontlines]...the action just as exciting, the science just as solid, the tension just as high. I gulped down the first book in a day, and I am already eager for the next one." —George R. R. Martin
Across the six-planet expanse of the Gaia system, the Earthlike Grotia struggles to stabilize in the wake of an interplanetary war. Amid an uneasy alliance to maintain economies, resources, and populations, Aden Robertson reemerges. After devoting twelve years of his life to the reviled losing side, with the blood of half a million casualties on his hands, Aden is looking for a way to move on. He's not the only one. A naval officer has borne witness to inconceivable attacks on a salvaged fleet. A sergeant with the occupation forces is treading increasingly hostile ground. And a young woman, thrust into responsibility as vice president of her family's raw materials empire, faces a threat she never anticipated. Now, on the cusp of an explosive and wide-reaching insurrection, Aden plunges once again into the brutal life he longed to forget. He's been on the wrong side of war before. But this time, the new enemy has yet to reveal themselves...or their dangerous endgame.

The sci-fi classic series returns!
September 13th: 1999 — An atomic accident causes the moon to be blown out of orbit and hurled into the unknown, the survivors of the lunar base stationed there launched towards their destiny across the stars. But what of the cataclysm and wanton destruction caused to the Earth in its wake?
Based on the classic science fiction television series Space: 1999, and set in the continuity of the original series, Aftershock and Awe steals a glimpse at an alternate history of mankind, and jump-starts humanity's eventual destiny far out in space.
