Albion's Seed: Four British Folkways in America is a 1989 book by David Hackett Fischer that details the folkways of four groups of people who moved from distinct regions of Great Britain to the United States. The argument is that the culture of each of the groups persisted, to provide the basis for the modern United States. Fischer explains "the origins and stability of a social system which for two centuries has remained stubbornly democratic in its politics, capitalist in its economy, liberta

Albion's Seed - Wikipedia

Access Free Albions Seed Four British Folkways In

ALBION'S SEED (1989) is an astonishing book, massive and masterful. Its goal is to document the four major British folkways that emigrated to America from the British Isles, where they settled, and the effect they have today. Broadly speaking, the four folkways are: 1. The "transatlantic elite" and Puritans to old New England; 2.

Fischer identifies four
relevant folkways: the
Puritans of New England, the
Cavaliers of Virginia, the
Quakers of the Delaware
Valley and the Borderers (or
Scotch Irish) of the back
country. The most
extraordinary part of this
long, long book was the
manner in which Fischer was
able to unpack the regional
cultures of the British
Isles.
