In the science-fiction/fantasy universe of Starship's Mage, humanity's only access to light speed travel lies in the hands of the aristocratic magi. With limited contact between the stars, the Mage-King of Mars relies on his most trusted agents to enforce his rule. Damien Montgomery begins Starship's Mage—the first book, a collection of five novellas—as a newly graduated Jump Mage who quickly becomes a fugitive while protecting the crew of the cargo freighter Blue Jay.

The first book, Starship's Mage: Omnibus was originally published as a series of five novellas following the young mage Damien Montgomery as he goes from a nobody with no family connections to a fugitive on the run from one of the Mage-King's "roving warrior-judges" to one of the most powerful mages alive and a student of the Mage-King himself.

A defector with a dangerous lead A chance to speak for the silent A perilous quest into enemy stars

A shackled Earth, ruled by an unstoppable tyrant An exiled son, and a one-way trip across the galaxy A perfect world, their last hope for survival Vice Admiral Isaac Gallant is the heir apparent to the First Admiral, the dictator of the Confederacy of Humanity. Unwilling to let his mother ' s tyranny stand, he joins the rebellion and leads his ships into war against the might of his own nation. Betrayal and failure, however, see Isaac Gallant and his allies captured. Rather than execute her only son, the First Admiral instead decides to exile them, flinging four million dissidents and rebels through a one-shot wormhole to the other end of the galaxy. There, Isaac finds himself forced to keep order and peace as they seek out a new home without becoming the very dictator he fought against—and when that new home turns out to be too perfect to be true, he and his fellow exiles must decide how hard they are prepared to fight for paradise...against the very people who built it.

A secret transmission from the far reaches of the galaxy falls into the hands of SETI radio astronomer Dr. Stephen Browning. His world begins to unravel as he discovers the cryptic message includes information of advanced technology and a dire warning from the future. Seeking the aid of brilliant-yet-impetuous playboy, Dr. Aston Wise, the two set off on an epic journey to discover the meaning of the transmission, only to discover that they are pawns in a much bigger game. Humanity hangs in the balance as powerful forces vie for control of the future, with only Wise and Browning to stop them.

Yet another work by Antares Stanislas,famous card reader and astrologer.The Tarot Minor Arcana: Learning the cards without memorizing their meaning. This book is the second integral part of the complete text of "The Tarot,the prediction of the future,"and is appropriate for those who just want to complete the part concerning the Minor Arcana. The text maintains its professionalism in its discussion of the concepts and sets the goal of bringing its readers into the world of the Tarot through a book that is easy to read. As always,the title is original for the author ' s works, because he,in his practice, receives invitations from his own clients and acquaintances to write works that fill the gap for those who want to practice or to go into this field. The problem with many,and by no means a secondary one,is that of memorizing the many meanings of the Tarot. The author has taken on the burden and the honor to help fill this gap.Following this book on the Minor Arcana is its correspondent volume on the Major.

Blindsight is the Hugo Award –nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

An alien ruin A murdered archeologist An ancient secret—and a conspiracy that will kill to keep it! When a scientist is murdered after finding signs of alien magic in an archeological dig, Mage Damien Montgomery, Hand of the Mage-King of Mars, is sent to investigate both the murder and the alien runes. His investigation is interrupted when a mysterious ship attacks the ruins with weapons only available to the Martian Navy. Despite saving the dig site, Montgomery is left with more questions than answers. His investigations reveal questions about the origin of his magic and his nation—and lead him back to the one place that should be safe: the court of the Mage-King of Mars.

BIG SHIPS BLOWING THINGS UP GO BIG OR GO HOME! Boomers. Ships of the Line. Star Destroyers. The bigger the ship, the better the bang. From the dawn of history onward, commanding the most powerful ship around has been a dream of admirals, sultans, emperors, kings, generalissimos, and sea captains everywhere. For what the intimidation factor alone doesn ' t achieve, a massive barrage from super-weapons probably will. Thus it was, and ever shall be, even into the distant future. From the oceans of Earth, to beneath the ice of Europa, to the distant reaches of galactic empires, it is the great warships and their crews that sometimes keep civilization safe for the rest of us—but sometimes become an extinction-level event in and of themselves. In " Superweapon " by David Drake, a fight for possession of an ancient alien warship will determine the fate of two vast interstellar powers. Then in " Hate in the Darkness " by Michael Z. Williamson, a team of libertarian Freeholders must think outside the box to do battle with the might of the United Nations and its powerful navy. And in " A Helping Hand, " Jody Lynn Nye posits an interstellar submarine on a rescue mission behind enemy lines—with the fate of an entire species hanging in the balance. Big, bold, and edge-of-your-seat space opera and military science fiction from David Drake, Sharon Lee & Steve Miller, Michael Z. Williamson, Steve White, Robert Buettner, Susan R. Matthews, Dave Bara, and many more! Contributors: David Drake Michael Z. Williamson Mark L. Van Name Steve White Jody Lynn Nye Brendan DuBois Sharon Lee & Steve Miller Susan R. REALITY BITES Talk radio host and werewolf Kitty Norville has agreed to appear on TV's first all-supernatural reality show. She's expecting cheesy competitions and manufactured drama starring shapeshifters, vampires, and psychics. But what begins as a publicity stunt will turn into a fight for her life. The cast members, including Kitty, arrive at the remote mountain lodge where the show is set. As soon as filming starts, violence erupts and Kitty suspects that the show is a cover for a nefarious plot. Then the cameras stop rolling, cast members start dying, and Kitty realizes she and her monster housemates are ironically the ultimate prize in a very different game. Stranded with no power, no phones, and no way to know who can be trusted, she must find a way to defeat the evil closing in . . . before it kills them all.
