news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

This collection of essays examines a diverse range of current thinking on electronic services networks. Rather than focusing on ESNs as features of specific industries, the networks themselves are explored as economic phenomena. This approach provides the reader with the theoretical background required to understand ESNs and their effect on business and finance, as well as a diverse set of case studies that apply these theoretical perspectives to understanding the issues raised by the networks.
