AQA A Psychology .A.S. level paper (PSYA1). January 2009. Dodgy results? ok, so like quite a number of people in january this year i sat the psychology exam on cognitive, developmental and research methods, i was predicted a B and got an E. Most of my college recieved either a D or E. Does anyone else have the same problem?

The exam books have been carefully written using student friendly language and a layout you will find easy to understand. Each topic has been broke down into EXAM NOTES which are more concise than general psychology text books but more comprehensive than standard revision guides. These books have been specially developed and written by experienced teachers and examiners to help students achieve the best possible grade in their psychology exam. ü Reduce frustration - All exam notes are presented in an easy way for you to learn ü Prevent nail biting - No more " I don ' t get this! " Key theories and studies are written in an easy peasy friendly way. ü Prevent Hair loss - Don ' t pull your hair out over the evaluation part. We have written it all for you! ü Reduce panic attacks - We have given you lots of exam questions at the end of the exam notes to practise (to prevent shock in the real exam if you haven ' t seen any before!). ü Prevent confusion - Use the revision checklist as you study to tell you what and how much you need to know. Visit www.psychologyzone.co.uk the only dedicated A Level Psychology website which has over 1000 exam questions and model answers, exam notes, exam advice and much more. Register onto the website and use the examGenerator tool. You can search for exam style questions with model answers or mark schemes and create your own revision or mock paper.

Written by a senior examiner, Molly Marshall, this AQA(A) AS Psychology Student Unit Guide is the essential study companion for Unit 1: Cognitive Psychology, Developmental Psychology and Research Methods. This full-colour book includes all you need to know to prepare for your unit exam: Clear guidance on the content of the unit, with topic summaries, knowledge check questions and a quick-reference index Examiner's advice throughout, so you will know what to expect in the exam and will be able to demonstrate the skills required Exam-style questions, with graded student responses, so you can see clearly what is required to get a better grade

This book prepares students for all the elements of the OCR AS exam. It gives the who, what, where, and even thewhy of each of the core studies. It also looks at some of the work that followed the studies. Specifically it covers: Core studies: an abstract of each study plus ample details of the aims, method, results and conclusions. Guidance is given on how each study can be evaluated and a wealth of extra materials is provided for each study e/ practical activities, discussion ideas, multiple-choice and exam-style questions, diagrammatic summaries, further reading and video links. Background to each core study: information about related research before and after the study; and biographical details of the researcher(s). Key issues: sixteen issues are discussed to cover the themes of the course and prepare students for the long-answer questions. A 'Psychological Investigations' chapterhelps studentsto understand research methods in psychology, necessary for the Psychological Investigations exam and also for understanding the core studies themselves. Exam guidance: short and long answer exam-style questions answered by students with examiner(t)m's comments. The book is presented in magazine-style spreads to aid the learning process, and has been thoroughly revised to match the requirements of the new OCR specification. The booke(t)m's accompanying website contains Answers to all exam questions. Suggested evaluations.

The Complete Topics Workbook has been written specifically to meet the requirements of the new AQA-A Unit 3 PSYA3 Specification. The Independent Learner series workbooks are the only books on the market to combine both a textbook and workbook. Using this unique combination our students have achieved well above the national average for grade A passes, with only one hour of teaching per week. Our students constantly tell us that our books are excellent and find that psychology is a fascinating discipline with most going onto to study Psychology at degree level.

In the Oxford Companion to Children's Literature it says of James Reeves, 'His real achievement, however, lies in his poetry, which is generally regarded as the best British "serious" children's verse since Walter de la Mare - though the poems are usually far from serious in subject-matter.' In this complete edition, first published in 1973, the delight is two-fold as the poems are complemented by Edward Ardizzone's beautiful and witty illustrations.

Fully revised to match the new 2015 specification from Eduqas, this book is written by senior examiners Lucy Hartnoll and Rhiannon Murray, alongside expert author Cara Flanagan. Packed with plenty of study and exam preparation features, it includes new studies and topics as well as extended evaluation of studies.

A beautiful and eerie story of love and memory from the author of The Moon Field.
