ARIES Petroleum Economics Software

Aries is made for the Oil and Gas industry. Updating and customizing the database is very easy. You can set up properties by project and the global editor allows you to replace or add data easily. It also has qualifier and scenario features that allow you to control sets of data. For running economics, planning budgets, and reporting reserves, Aries is one of the best in the industry and used more than any other product in the industry for that purpose.

Landmark Solutions - E&P Software - Halliburton

training for ARIES is fairly expensive at the Halliburton/Landmark offices. The software itself is also quite expensive so schools rarely teach it. Most schools in Texas use PHDWin. There's not much freeware for economics software packages but if you're an advanced Excel user, you can model some of the same things in Excel.
