Count Basie was one of America's pre-eminent and influential jazz pianists, bandleaders, and composers, known for such classics as "Jumpin' at the Woodside," "Goin' to Chicago Blues," "Sent for You Yesterday and Here You Come Today," and "One O'Clock Jump." In Good Morning Blues, Basie recounts his life story to Albert Murray, from his childhood years playing ragtime with his own pickup band at dances and pig roasts, to his years in New York City in search of opportunity, to rollicking anecdotes of Basie's encounters with Fats Waller, Frank Sinatra, Fred Astaire, Sammy Davis Jr., Quincy Jones, Billie Holiday, and Tony Bennett. In this classic of jazz autobiography that was ten years in the making, Albert Murray brings the voice of Count Basie to the printed page in what is both testimony and tribute to an incredibly rich life.

From Julia Blackburn, an author whose ability to conjure lives from other times and places is so vivid that one suspects she sees ghosts, here is a portrait of a woman whose voice continues to haunt anyone who hears it. Billie Holiday's life is inseparable from an account of her troubles, her addictions, her arrests, and the scandals that would repeatedly put her name in the tabloid headlines of the 1940s and 1950s. Those who knew her learned never to be surprised by what she might do. Her moods and faces were so various that she could seem to be a different woman from one moment to the next. Volatile, unpredictable, Billie Holiday remained, even to her friends, an elusive and perplexing figure. In With Billie, we hear the voices of those people—piano players and dancers, pimps and junkies, lovers and narcs, producers and critics, each recalling intimate stories of the Billie they knew. What emerges is a portrait of a complex, contradictory, enthralling woman, a woman who knew what really mattered to her. Reading With Billie, one is convinced that she has only just left the room but will return shortly.

Hollywood film scores underwent a supersonic transformation from the 1950s through the 1970s. This genre-by-genre overview of film and television soundtrack music covers a period of tremendous artistic and commercial development in the medium. Film and television composers bypassed the classical tradition favored by earlier screen composers to experiment with jazz, rock, funk and avant-garde styles. This bold approach brought a rich variety to film and television productions that often took on a life of its own through records and CDs. From Bernard Herrmann to Ennio Morricone, the composers of the "Silver Age" changed the way movie music was made, used, and heard. The book contains more than 100 promotional film stills and soundtrack cover art images.
