Derry presents case studies complete with surgical pathology confirmation showing regression of both fibrocystic breast disease and carcinoma-in-situ breast cancer with iodine treatment. He also presents a case report case of infiltrating breast cancer involving the skin which regressed after prolonged application of topical Lugol's iodine solution.

Breast Cancer and Iodine: How to Prevent and How to ...

Iodine is a crucial ingredient in the delicate balance of the endocrine system, and deficiencies have been implicated in conditions such as diabetes, polycystic ovarian disease (PCOS), fibrocystic breast disease, increased Breast Cancer risk and most commonly goiter. More than 100 years ago, Iodine was called " the universal medicine " .

Iodine and Breast Cancer - Breast Cancer Conqueror

Iodine and Breast Cancer Most people are deficient in this essential nutrient due to a lack of eating iodine-rich foods and because exposure to common halogens such as chlorine, fluoride, and bromides all have the ability to displace iodine, therefore interfering with its absorption.

Iodine & the Breast / Healing Cancer with Alternative Methods

Furthermore, iodine inhibits breast cancer cell growth and up-regulates the genes responsible for controlling their expression in the first place. (13) The Difference in Japanese Women. The typical diet of Japanese women includes lots of iodine-rich seaweed. It ' s hypothesized that the higher iodine intake accounts for the decreased incidence of breast cancer in this demographic when compared with North American women.

Iodine And Breast Cancer: It Lowers Breast Cancer Risk!

Iodine and Breast Cancer For breast patients, iodine's therapeutic mechanisms of action may be at least three-pronged: Hormonal (11), Biochemical (12-18),Genetic (19). That is, iodine desensitizes the estrogen receptors, alters the chemical pathways

Breast Cancer Choices Supplement Strategy - Iodine

Iodine is taken up by the sodium/iodide symporter in the breast and its role is important in promoting the development of normal versus neoplastic breast tissue development 12. In animal models of breast cancer, iodine in supplement or seaweed form, has demonstrated beneficial effects in suppressing breast cancer cell and tumor growth 12.

Changes in Dietary Iodine Explains ... - Journal of Cancer

Breast Cancer. In laboratory tests, iodine has been shown to kill cancer cells and it acts in the body to enhance the immune system in its search for rogue and pre-cancer cells. Indeed, iodine deficiency is known to cause pre-cancerous fibrocystic disease, which can lead to breast cancer. Iodine supplementation can maintain breast health.

Iodine and Cancer | CANCERactive

Iodine can stop this continuum wherever it catches it and hopefully reverse it, but at least put the brakes on what is happening. " Brownstein reports three cases of spontaneous regression of breast cancer after women take iodine supplementation in his iodine book. This should come as no surprise as a 2008 paper by Bernard A. Eskin MD showed ...

Iodine Treats and Prevents Cancer - Dr. Sircus

Iodine deficiency is a recognized risk factor in the development of cancer of the breast, prostate, and probably the ovary and endometrium. Breast cancer is twice as common (12.1 %) in women taking natural thyroid hormone or synthetic thyroid hormone as in women not taking thyroid hormones (6.2 %).

Cancer and Iodine - The Iodine Project

Using breast cancer cells (MCF-7 cells), Stoddard and colleagues demonstrated that Lugol's solution (5% iodine/10% iodide) affected 43 genes involved cell cycle growth, proliferation, and differentiation. 40 Many of the 43 genes are those upregulated by estrogens, implying that the Lugol's solution interfered with this action and had a net "antiestrogenic" effect on gene expression.

Iodine and Cancer | Natural Medicine Journal

Breast cancer kills more women in the United States than any cancer except lung cancer. No one knows why some women get breast cancer, but there are a number of risk factors. Risks that you cannot change include Age - the chance of getting breast cancer rises as a woman gets older Genes - there are two genes, BRCA1 and BRCA2, that greatly increase the risk.

Breast Cancer - Iodine.com

" Iodine deficiency is a major risk factor for breast cancer. Human breast tissue and breast milk contain higher concentrations of iodine than the thyroid gland itself, which contains just 30% of the body ' s iodine stores. Iodine plays an important role in the health of women ' s breast tissue.

Iodine Deficiency is a Risk Factor for Breast Cancer

Breast tissue has a high concentration of iodine and the same iodine-transporting proteins used by the thyroid gland. [1, 2] In healthy breast tissue, iodine offers antioxidant benefits. [3] C Conversely, iodine-deficient breast tissue is susceptible to lipid oxidation, a contributor to many diseases including cancer. [4] [5] [6] [7] 3.

Iodine and Breast Health: 6 Things You Need to Know

Long-term iodine depletion causes changes in breast tissue. When sufficient iodine is added to the diet, breast tissue returns to its normal state. Normal iodine intake results in normal estrogen function in breast tissue. Iodine supplementation blocked the development of cancer in animals given cancer-causing substances.

Iodine and Breast Health - KathleenBarnes.com

Eskin found that breast tissue deficient in iodine was much more likely to show precancerous changes, such as atypia (irregular), dysplasia (abnormal development), and neoplasia (the promotion of early breast lesions).

The Iodine and Breast Cancer Connection - Magzter

In addition, women who have hypothyroidism are 11% more likely to develop Breast Cancer. This is because, like the thyroid, iodine acts as " food " for the mammary glands, providing tissue integrity in the breasts.
