development) **Building Web Apps With Wordpress**

The purpose of the talk, as you can tell from the title, is presenting a case for building web applications with WordPress. I believe it can be done – because I've

Read Online Building Web Apps With Wordpress

seen it done and worked with teams who do it – but before actually looking into the reasons why I think it's a good foundation for certain applications, I also want to clarify terminology that we toss around a bit.
