About the books. The new edition of Business Analysis and Valuation builds on the strong success of the first IFRS editions, providing students with the knowledge of how to use financial statement information to assess a firm's financial performance, value, and creditworthiness. These texts are primarily aimed at Masters and upper-level undergraduate programs in business and builds a bridge between accounting and finance, therefore making it accessible to both finance and accounting students.

**Cengage Learning - Business Analysis and Valuation**

This course introduces a framework for business analysis and valuation using publicly available information, such as the information contained in financial statements, in order to develop an in-depth analysis of a firm and extract its fundamental value. Much of the course's emphasis is on case studies.
