Business Models On The Web

Business models have been defined and categorized
in many different ways. This is one attempt to present
a comprehensive and cogent taxonomy of business
models observable on the web. The proposed
taxonomy is not meant to be exhaustive or definitive.
Internet business models continue to evolve.

B2C sales are the traditional retail model, where a business sells to individuals, but business is conducted online as opposed to in a physical store. Examples of B2C businesses are everywhere. Exclusively online retailers include Newegg.com, Overstock.com, Wish, and ModCloth, but other major B2C model brick-and-mortar businesses like Staples, Wal-Mart, Target, REI, and Gap.

B2B, or Business to Business, is the largest e-commerce model. In this model, both the sellers and buyers are business entities. This model describes the transactions between a retailer or a wholesaler, or a wholesaler and manufacturer. Also, the transaction of the B2B business model is much higher than that of the B2C model.
