Figure 5.1. The Law of Supply. •The quantity supplied, or offered for sale, varies directly with its price. •If prices are high, suppliers will offer greater quantities for sale. If prices are low, suppliers will offer smaller quantities for sale. •A change in overall supply will cause the Demand curve to shift.

At the top, the K.E. is zero. If we jump, then the stored potential energy starts getting converted to kinetic energy. Just before we land, all of the potential energy gets converted to kinetic energy. Now, the potential energy = 0. The kinetic energy can be calculated using the formula, 1/2mv² where m = mass and v = velocity.
