mastery of the NGSS,  
HS-PS1-7. Balancing  
chemical equations  
provides a critical step  
towards understanding  
the quantitative nature  
of a chemical reaction.

## **Assessment: Balancing Chemical Equations**

This is the most  
common type of  
chemical equation. In  
this chemical equation,

File Type PDF

Chemical

a new product is formed

by combining two to

three combinations of

reactants. For instance,

$H_2 + O_2 \rightarrow H_2O$ . This is

a chemical equation

where two atoms of

hydrogen are combined

to form a product,

water. This is why this

reaction is called as

synthesis reaction.
