"Child of the Sun" reads like a gay Harelquin romance, appropriately modified: lots of non-explicit but salacious depictions of sex, plenty of rough trade, and an exaggerated fashion sense (the Emperor is a stickler for the right gowns and shoes).

Child of the Sun

Eric Falken couldn't run any more. At least he'd led the Hiltonists away from the pitiful starving holes where his people hid, on the outer planets and barren asteroids and dark derelict hulks floating far outside the traveled lanes.ExcerptEric Falken stood utterly still, staring down at his leashed and helpless hands on the controls of the spaceship Falcon.The red lights on his indicator panel showed Hiltonist ships in a three-dimensional half-moon, above, behind, and below him. Pincer jaws, closing fast.The animal instinct of escape prodded him, but he couldn't obey. He had fuel enough for one last burst of speed. But there was no way through that ring of ships. Tractor-beams, criss-crossing between them, would net the Falcon like a fish.There was no way out ahead, either. Mercury was there, harsh and bitter in the naked blaze of the sun. The ships of Gantry Hilton, President of the Federation of Worlds, inventor of the Psycho-Adjuster, and ruler of men's souls, were herding him down to a landing at the lonely Spaceguard outpost.A landing he couldn't dodge. And thenFor Paul Avery, a choice of death or Happiness. For himself and Sheila Moore, there was no choice. It was death.The red lights blurred before Falken's eyes. The throb of the plates under his feet faded into distance. He'd stood at the controls for four chronometer days, ever since the Hiltonists had chased him up from Los Angles, back on Earth.He knew it was because he was exhausted that he couldn't think, or stop the nightmare of the past days from tramping through his brain, hammering the incessant question at him. How?How had the Hiltonists traced him back from New York? Paul Avery, the Unregenerate recruit he went to get, had passed a rigid psycho-search-which, incidentally, revealed the finest brain ever to come to the Unregenerate cause. He couldn't be a spy. And he'd spoken to no one but Falken.Yet they were traced. Hiltonist Black Guards were busy now, destroying the last avenues of escape from Earth, avenues that he, Falken, had led them through.But how? He knew he hadn't given himself away. For thirty years he'd been spiring Unregenerates away from Gantry Hilton's strongholds of Peace and Happiness. He was too old a hand for blunders.Yet, somehow, the Black Guards caught up with them at Los Angles, where the Falcon lay hidden. And, somehow, they got away, with a starving green-eyed girl named Kitty"Not Kitty," Falken muttered. "Kitty's Happy. Hilton took Kitty, thirty years ago. On our wedding day."A starving waif named Sheila Moore, who begged him for help, because he was Eric Falken and almost a god to the Unregenerates. They got away in the Falcon, but the Hiltonist ships followed.Driven, hopeless flight, desperate effort to shake pursuit before he was too close to the Sun. Time and again, using precious fuel and accelerations that tried even his tough body, Falken thought he had escaped.But they found him again. It was uncanny, the way they found him.Now he couldn't run any more. At least he'd led the Hiltonists away from the pitiful starving holes where his people hid, on the outer planets and barren asteroids and dark derelict hulks floating far outside the traveled lanes.And he'd kill himself before the Hiltonist psycho-search could pick his brain of information about the Unregenerates. Kill himself, if he could wake up.He began to laugh, a drunken, ragged chuckle. He couldn't stop laughing. He clung to the panel edge and laughed until the tears ran down his scarred, dark face.

A spirited survey of humanity's historical and modern efforts to harness sun-based energy reveals how the human race's successes have hinged directly on effective uses of sun energy, cites rates in pollution and global warming as warning signs of fossil fuel limits, and makes optimistic predictions about future innovations. 13,000 first printing.

1970. Fourteen year old Tony is seduced by the skinhead movement, sucked into a world of racist violence and bizarre ritual. It is a milieu in which he must hide his homosexuality, in which every encounter is explosively risky. 2003. Brown-Eyed Children of the Sunis a new study of the Chicano/a movement,El Movimiento, and its multiple ideologies from a broad cultural perspective. The late 1960s marked the first time U.S. society witnessed Americans of Mexican descent on a national stage as self-determined individuals and collective actors rather than second-class citizens. George Mariscal's book examines the Chicano movement's quest for equal rights and economic justice in the context of the Viet Nam War era. Mariscal outlines the social and political conditions that madeEl Movimientopossible, especially the Cold War, U.S. military interventions, the Black Civil Rights movement, and anti-colonial struggles in the so-called Third World. This context paved the way for U.S. minority groups to politicize their cultural production and elaborate radical identities. Mariscal analyzes many issues that scholars have heretofore ignored when studyingEl Movimiento. Mariscal argues convincingly that the term "nationalism" fails to adequately describe the complexity of the movement and shows how Chicano/a internationalism arose in response to the Cuban Revolution of 1959. He traces the ideological uses of the image of Cesar Chavez as a touchstone for debate within El Movimiento and explains how some activists such as Reies López Tijerina formed alliances across ethnic boundaries, specifically with African American militants. The final chapters look at attempts to democratize higher education in California and suggest ways in which the legacy of the movement might be relevant to contemporary political projects. "George Mariscal gave us that extraordinary bookAztlanandViet Nam. Here he turns his attention to a thoughtful analysis and description of the Chicano Movement of the Sixties and Seventies, in all its complexity, excitement, and promise. He finds fascinating connections between "el Movimiento" and certain historical figures like Che Guevara and Cesar Chavez. This book is a rich tapestry of provocative ideas and untold history."--Howard Zinn, author, A People's History of the United States

Historian Lonn Taylor built a career as a curator in history museums, including the Smithsonian Institution. In retirement he wrote weekly columns on the people and places of Texas, signed the "Rambling Boy," that were distributed widely in print and on the radio. This book stands out from his numerous other books on historical and literary topics: it's the only one he wrote about himself and the last book he wrote before he died in June 2019. It describes how his experience of growing up in the Philippines from 1947 to 1955 shaped his entire life by teaching him the destructive power of war. In the Philippines, his father was employed as a civil engineer building and rebuilding roads and bridges in the war-devastated islands. "I lived most of my daily life in a well-protected bubble of white colonialism," he says in this memoir of his youth, "and thought nothing about it." Despite that "well-protected bubble," Taylor was aware of the ruins all around him, the ravages of bombs and artillery shells, and of his Filipino neighbors unbowed by their loss of wealth and privilege, or their confinement and starvation in Japanese interment camps. The manifest strengths and resilience of a society blended of Malay, Chinese, Spanish, and American cultures made him a lifelong believer in the benefits of multiculturalism—even as he bore witness to the islands' postcolonial woes: a feudal agricultural system maintained by landlords with private armies, corruption so endemic that even post office clerks expected tips for selling stamps, and deadly outbreaks of personal violence. As an American child in the Philippines, and then, inevitably, an outsider in the postwar America he returned to at fifteen, Taylor honed a keen and varied sense of difference in class, culture, and language. This nuanced understanding can be heard throughout Child of the Sun as Taylor reflects on his innocent years, conveying with hard-earned worldliness and wisdom all the beauty and lasting conflict of a lost world and time.

Locked away in a prison cell, Sir Guy has lost everything. Afflicted by his despair, he longs for the end. But when a mysterious maiden appears, her benevolence causes him to desire life again. There must be a way to escape, and the maiden is eager to help. But why? Meanwhile, the Rebel, Robin Hood feels avenged at Sir Guy's demise, for the infamous blackguard had done much evil against him. And yet, as each venture what paths their feet were meant to follow, they come to unearth something strange at work in the shadows. An ancient call. Through visions and mystic encounters, Sir Guy is beckoned over and over to remember what time has allotted him to forget; and the maiden who discovered him doesn't think these mysteries so wholly unfamiliar. For long before any outlaws roamed the forest of Sherwood, these three were destined to find each other.

Children of the Midnight Sun was chosen as one of Parenting Magazine's 1998 Books of the Year and School Library Journal's Best Books of 1998. For Native children, growing up in Alaska today means dwelling in a place where traditional practices sometimes mix oddly with modern conveniences. Children of the Midnight Sun explores the lives of eight Alaskan Native children, each representing a unique and ancient culture. This extraordinary book also looks at the critical role elders play in teaching the young Native traditions. Photographs and text present the experiences and way of life of Tlingit, Athabaskan, Yup'ik, and other Native American children in the villages, cities, and Bush areas of Alaska.
