Now in its third edition, City Lights: Urban-Suburban Life in the Global Society is the most interdisciplinary urban studies book on the market. It skillfully blends social science perspectives with insights from the visual arts and humanities to provide a comprehensive introduction to cities, suburbs, and post-suburban areas and how they work. Motivating students to develop their own perspectives on the issues, author E. Barbara Phillips provides an extended discussion of "doing social science," systematically showing how scholarly controversy and public debates over urban-suburban policy are rooted in deep-seated differences: in ideologies, research methods, theoretical orientations, academic disciplines, and/or levels of analysis. Featuring a unique combination of serious scholarship and an accessible, engaging writing style, City Lights, Third Edition, is ideal for courses in urban sociology, urban studies, urban growth and development, urban theory, and urban history. It incorporates many helpful pedagogical features, including almost 200 photographs and illustrations, real-life case studies, excerpts from classic works, key terms, and suggestions for further learning. In addition, end-of-chapter projects encourage students to apply what they have learned by participating in research, activism, or other civic pursuits in their own communities. Thoroughly revised and updated, the third edition features * A focus on the U.S. city but also a global emphasis throughout, with in-depth profiles of such cities as Kyoto, Cord ó ba, Shanghai, Mumbai, and Mexico City; numerous global-local links; and a new chapter (5) on global urbanization and the urban system * Updated statistical data * Detailed coverage of the Internet's influence on personal, political, and economic relations * Discussions of numerous new topics including the impact of terrorism on cities, new immigrants in the U.S. and elsewhere, gated communities, building "green," and the "New Urbanism" in the U.S * Analyses of recent political, social, and economic changes--including economic downturns--and their effects on urbanites and suburbanites in the U.S. and worldwide

Among the various lines drawn between people in the church--male and female, young and old, black and white, rich and poor, Republican and Democrat--there is the line between the urban and the suburban. The stereotypes of the edgy, socially active, multicultural urban Christian and the middle-class, comfortable, upwardly mobile suburban Christian mix fact and fiction. Linking Arms, Linking Lives looks beyond stereotypes and makes a compelling case for partnership that crosses urban and suburban for effective ministry among the poor. Drawing from a growing network of development practitioners, pastors, and theologians, this book focuses on the experiences of partnership between urban and suburban entities to provide both theological foundations and practical guidelines for those who desire to partner effectively. All who want to find viable ways to help the poor will welcome this thoughtful and hope-filled book. Includes a Foreword by Noel Castellanos.

First published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Urban Ethnic Encounters attempts to answer the two leading questions of how urban space structures the life of ethnic groups and how ethnic diversity helps to shape urban space. A multidisciplinary team of authors searches the various dimensions of the spatial organization of inter-ethnic relations in cities and countries around the globe. Unlike most ethnographies in which authors write about the 'other' in faraway places, the majority of the contributors have studied their own society. The case studies are from four different continents. Material is presented from diverse locations such as the cities of Toronto, Philadelphia, Vienna, Beirut, Jakarta, Tehran, Osaka and Albuquerque, and the countries of Israel, Brazil and Taiwan, presents a unique opportunity for comparative analysis of ethnicity and spatial patterns. From this wealth of material important inter-cultural conclusions can be made about urban ethnic diversity.

Explores the utilization of urban technology to support knowledge city initiatives, providing fundamental techniques and processes for the successful integration of information technologies and urban production. Presents research on a multitude of cutting-edge urban information communication technology issues.

Modern cities can be designed to constitute a more supportive environment for a great many activities, provide a more livable habitat, and reduce the burden imposed on the biosphere. They can be made healthier (in terms of the definition by World Health Organization) and more sustainable by means of new and emerging preventive approaches. Healthy Cities focuses on those preventive approaches that can make cities healthier and more sustainable. This book, as well as the two companion volumes, Sustainable Energy and Sustainable Production, is the result of a twelve-year research project carried out at the Center for Technology and Social Development at the University of Toronto. The research findings led to the development of a new conceptual framework and strategy aimed at converting technological and economic growth into development that would gradually become more sustainable.

Urban Ills: Confronting Twenty First Century Dilemmas of Urban Living in GlobalContexts brings together original research by a wide array of interdisciplinary scholars to examine contemporary dilemmas impacting urban life in global contexts, following the latest global economic downturn. Focusing extensively on vulnerable populations, economic, social, health and community dynamics are explored as they relate to human adaptation to complex environments.

First Published in 2000. This book and its companion volume, Human Capital Investment fo r Central City Revitalization, are the products of a two-year endeavor by the National Center for the Revitalization of Central Cities. The National Center is a consortium of academic institutions that analyzes critical problems facing America` s central cities, evaluates strategies to address those problems, and recommends policy alternatives.

Celebrated as the home of the blues and the birthplace of rock and roll, Memphis, Tennessee, is where Elvis Presley, B. B. King, Johnny Cash, and other musical legends got their starts. It is also a place of conflict and tragedy--the site of Martin Luther
