Cry of Pain examines the evidence from a social, psychological and biological perspective to see if there are common features that might shed light on suicide. Informative and sympathetically written, it is essential reading for therapists and mental health professionals as well as those struggling with suicidal feelings, their families and friends.

~~Cry of Pain: Understanding Suicide and the Suicidal Mind~~

A central idea of the book is that suicide and attempted suicide are most often a cry of pain, like the cry of an animal caught in a trap. The suicidal person is rendered helpless by things that are happening around them and by their own mental anguish. Struggling to get free only seems to make matters worse.
