Air Compressors for sale | eBay
In the 70's and early 80's when I was working for Bently I worked on a number of Demag integral gear air compressors. These may be previous designs to the 6000. These were VK-85' VK-80, VK-63, and VK-47. They were powered by 1200 rpm synchronous motors with a long spacer coupling between motor and machine input coupling.

Demag 6000 Compressor | AMP Maintenance Forums
Was fitted on to a CompAir/Demag Regatta 160 which is 90kw compressor but this airend would be fitted on other Brands and other size compressors also. As you can see its clean and re-sprayer as usual after every overhaul, this would have been done for no less than £2000!!! Final Price is subject to VAT
