Engineering Technologies covers the mandatory units for the EAL Level 3 Diploma in Engineering and Technology: Each compulsory unit is covered in detail with activities, case studies and self-test questions where relevant. Review questions are provided at the end of each chapter and a sample multiple-choice examination is included at the end of the book. The book has been written to ensure that it covers what learners need to know. Answers to selected questions in the book, together with a wealth of supporting resources, can be found on the book's companion website. Numerical answers are provided in the book itself. Written specifically for the EAL Level 3 Diploma in Engineering and Technology, this book covers the two mandatory units: Engineering and Environmental Health and Safety, and Engineering Organizational Efficiency and Improvement. Within each unit, the learning outcomes are covered in detail and the book includes activities and 'Test your knowledge' sections to check your understanding. At the end of each chapter is a checklist to make sure you have achieved each objective before you move on to the next section. At www.key2engtech.com, you can download answers to selected questions found within the book, as well as

Malta. With viewpoints from award-winning journalists and perspectives from tomorrow's business leaders, this prestigious edition seeks to get to the heart of corporate philosophies and define the challenges facing the country, which has long been framed by virtue of where it is whilst overlooking what it offers in terms of commercial opportunities. The book aims to transfer the knowledge and experience of established Maltese businessmen to the younger generation at the same time as introducing their companies to their European counterparts with a static, fixed point of reference on bookshelves all year round. By taking this rare people-first approach, the readers will learn about the personalities driving the companies that are shaping the economy and discover the secrets of their success. These influential individuals are the proof which other executives seek as they consider the Republic of Malta as a viable destination for their business interests.
