Science and technology is one of the key aspects of the advancement of the world and evolution. Science on its own has its various applications so also does technology. The two aspects, science and technology, each have significantly helped in our day to day activities, long disease free lives and as an avenue for ease of stress. The main aim of both science and technology is to help in the improvement and advancement of society.

~~Short Essay on Science and Technology – ImportantIndia.com~~

In today ' s modern world, technology has an ever-changing effect on many things – and this includes English language learning and teaching. Technology has gained a more prominent place in classrooms in recent times and is of particular use to blended teachers. Blended teaching – or learning – is a formal education method whereby content is partly delivered through digital and online media.
