I have a Escort MK2 RS2000 project and need some assistance with the coil wiring. The wiring and coil are standard and so is the distributor (non-electronic). The starter works fine and the engine fires up easily but won't run. I've done some research online and don't believe I'm getting the 12V across the coil when the starter is not cranking (ignition key in position 2). I have worked out ...
