Denver 2015: Fred Gitelman & his dog Phixr. Source: Canadian Master Point Magazine. Playing bridge like an expert isn't about executing backwash squeezes and brilliant coups - at least, most of the time. It's about concentration, hard work, and most of all, avoiding the errors to which lesser mortals are prone. Even the top players make mistakes, though - which is the point of this ...

Experts Errors By Fred Gitelman | Youth World Bridge

Back in 1993, in the pages of Canadian Master Point Magazine, Bridge Base founder Fred Gitelman began a three-part series on improving 2/1 bidding. BBO fans should recognize that system as the specialty of BBO's bridge "robot," GIB, and so they might be very interested to hear Fred's thoughts on the subject.

Fred Gitelman [PDF]

In 2005 he was named Personality of the Year by the International Bridge Press Association.</p><p>He is well known for the educational software he produces through his company Bridge Base Inc. His most recent project is Bridge Base Online, which he began in 2001, for online bridge play.

Imagine sitting beside a world-class bridge player and being able to listen to his thoughts as each hand develops... you can help but improve your own game! Every hand in this fascinating book comes from actual play; many of them are taken from the author's own experience in world-level competition. Fred Gitelman believes that there is something to be learned from every bridge hand, whether you are a novice or an expert, and he proves it here. Just as fascinating as the bridge, however, are Fred's observations on his partners and opponents, who range from world champions to famous amateurs like Bill Gates and Warren Buffett. Fred Gitelman (Las Vegas) has a trophy case full of world championship medals, many of them earned playing for his native Canada. He is known throughout the world as a leading designer and producer of bridge software, while his web site, Bridge Base Online, is the most popular bridge-playing site on the Net.

This book is based on an in-depth filmed conversation between Howard Burton and Fred Gitelman, world-champion bridge player and co-founder of Bridge Base Online. This wide-ranging conversation provides behind-the-scenes insights into the world of professional bridge, the psychological stress of top-flight competition and how the human mind can compute amazing feats of memory. This carefully-edited book includes an introduction, The Art of Competition, and questions for discussion at the end of each chapter: I. Bridge Background - What it's all about II. A Personal Perspective - Beginnings, partnerships, tournaments and memory III. The Bridge Business - Educational software, online domination and special friends IV. At the summit - Conquering the world and then reverting to type V. Critical Times? - Demographics, gender and the future of bridge About Ideas Roadshow Conversations: This book is part of an expanding series of 100+ Ideas Roadshow conversations, each one presenting a wealth of candid insights from a leading expert through a focused yet informal setting to give non-specialists a uniquely accessible window into frontline research and scholarship that wouldn't otherwise be encountered through standard lectures and textbooks. For other books in this series visit our website: <https://ideas-on-film.com/ideasroadshow/>.

Including 120 deals, with instructions for playing and scoring them (as either teams or pairs), this book shows how to play a one-table duplicate at home. As a bonus, each deal is accompanied by an expert commentary, so you can see how it should have been bid and played.

This book discussed the theory of bridge bidding for advanced players, with emphasis on the principles that need to underpin an effective bidding system. These include the concepts of Useful Space, Relays, Transfers, Dialogue Bidding, as well as the conflicting needs for a system that is robust, antagonistic, and also accurate. The ideas are illustrated with dozens of example hands from championship play, showing how these principles work in practice. The book will appeal to serious tournament players.

Conversations About Anthropology & Sociology include the following 5 wide-ranging Ideas Roadshow Conversations featuring leading experts. This collection includes a detailed preface highlighting the connections between the different books. Each book is broken into chapters with a detailed introduction and questions for discussion at the end of each chapter: I. The Science of Siren Songs: Stradivari Unveiled - A Conversation with master violinmaker, acoustician and MacArthur Fellow Joseph Curtin. This wide-ranging conversation explores Curtin's long quest to characterize the sound of a Stradivari violin and the rigorous series of double-blind tests he and his colleagues developed to probe whether or not professional musicians can really tell the difference between a Stradivari and a modern violin. This thought-provoking book also examines violin acoustics and how acoustic science can be

married to the art of violin making while merging time-honoured techniques with new materials and design. II. In the Cards - A Conversation with Fred Gitelman, world-champion bridge player and co-founder of Bridge Base Online. This comprehensive conversation provides behind-the-scenes insights into the world of professional bridge, the psychological stress of top-flight competition, how the human mind can compute amazing feats of memory, bridge in schools, coaching Bill Gates and Warren Buffett and more. III. Embracing the Anthropocene: Managing Human Impact - A Conversation with Mark Maslin, Professor of Geography at University College London. This in-depth conversation explores Mark Maslin's research on the Anthropocene which according to his definition began when human impacts on the planet irrevocably started to change the course of the Earth's biological and geographical trajectory, leading to climate change, loss of biodiversity, deforestation, and more. IV. The Joy of Mathematics - A Conversation with Ian Stewart, Emeritus Professor of Mathematics at the University of Warwick and bestselling science and science fiction writer. For Ian Stewart, mathematics is far more than dreary arithmetic, while mathematical thinking is one of the most important—and overlooked—aspects of contemporary society. This conversation explores what mathematics is and why it's worth doing, symmetry, networks and patterns, the relationship between logic and proof, the role of beauty in mathematical thinking, the future of mathematics, linking mathematical oscillations to animal gaits, how to deal with the peculiarities of the mathematical community, and much more. V. On Atheists and Bonobos - A Conversation with primatologist Frans de Waal, the Charles Howard Candler Professor of Primate Behavior in the Department of Psychology at Emory University and director of the Living Links Center at the Yerkes National Primate Research Center at Emory. Frans de Waal is renowned for his work on the behaviour and social intelligence of primates. This thought-provoking conversation examines fascinating questions such as: Are we born with an innate sense of "the good"? Do we learn from others what is "wrong"? Does religion determine, or is it a result of, morality? and more. Howard Burton is the founder and host of all Ideas Roadshow Conversations and was the Founding Executive Director of Perimeter Institute for Theoretical Physics. He holds a PhD in theoretical physics and an MA in philosophy. Ideas Roadshow offers an expanding series of Ideas Roadshow Collections, visit our website: <https://ideas-on-film.com/ideasroadshow/> for further details.

The irascible hero of 'Tales Out of School' and 'A Study in Silver' is back! Watch him take on new opponents as the author finds fresh literary targets to lampoon. Once again, Tim Bourke's incomparable deals add brilliant bridge to the humor. This new collection will keep Silver aficionados laughing all the way through.

Shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Prize 2008 The Snowball is the first and will be the only biography of the world's richest man, Warren Buffett, written with his full cooperation and collaboration. Combining a unique blend of "The Sage of Omaha's" business savvy, life story and philosophy, The Snowball is essential reading for anyone wishing to discover and replicate the secrets of his business and life success. Warren Buffett is arguably the world's greatest investor. Even as a child he was fascinated by the concept of risk and probability, setting up his first business at the age of six. In 1964 he bought struggling Massachusetts textile firm Berkshire Hathaway and grew it to be the 12th largest corporation in the US purely through the exercise of sound investing principles - a feat never equalled in the annals of business. Despite an estimated net worth of around US\$62 billion, Buffett leads an intriguingly frugal life taking home a salary of only £50,000 a year. His only indulgence is a private jet, an extravagance he wryly acknowledges by calling it "The Indefensible". In 2006, he made the largest charitable donation on record, with most of it going to the Bill & Melinda Gates Foundation. The Snowball provides a comprehensive, richly detailed insight one of the world's most extraordinary and much loved public figures.

All North American players are taught to play using a strong notrump, but that is not the way of the rest of the world. Even in North America, weak notrump systems, or even Kamikaze notrump systems, are becoming more common. This book discusses the advantages and disadvantages of playing a system with a weaker notrump opening, and shows how the 1NT range impacts the rest of the bidding system. Even those who have no interest in converting to a weak notrump range still need to know how to play against weak notrump systems. For them, the book includes advice on effective competitive methods.
