[6 Best Pharmacology Flashcards for Nursing Students](#)

The way nursing school approaches teaching pharmacology varies widely, but the subject matter remains the same. There are different pieces of information to know; some require straight memorization and repetition (dosages, names, antidotes), while others require some deeper understanding (like the mechanism of action, applying it to a clinical situation).

[Pharmacology Tips for Nursing Students – From a Nurse](#)

The SOCK Method for Mastering Nursing Pharmacology (free) For many students, I ' ve found that the only thing really standing between them and success in pharm is a method for learning medications and drugs. When I finally realized that, I went to work developing the S.O.C.K. Method (yes, that ' s really the name).

Pharmacology education in nursing has become increasingly important as nurses' roles in administering, prescribing and educating patients about their medications have grown. Nurses are the last barrier between any particular drug and patient. This is why it is so important to be knowledgeable when it comes to drug uses, doses, side effects, and contraindications. In addition to the obvious benefit of protecting our patients and fulfilling our oath to do no harm, it benefits all nurses to know and be well versed in the drugs they are administering in order to protect themselves and their nursing licenses.

Pharmacology for Nurses, Second Edition teaches undergraduate nursing students the basic concepts of pharmacology.

Demolish NCLEX(r) Nursing Pharmacology!Pharmacology makes up 15% of the NCLEX(r) test plan. For many nurses medications and pharmacology can be a difficult subject. But not anymore!
