Foundations Letter Sequence - Kora

In Foundations, the letters are not introduced in abc order but in the following way, 2-3 letters/sounds a week, focusing on lowercase letters first, followed by uppercase letters. The reasoning behind this is that students need to know the lowercase letters in order to read print. The letters are taught by name, keyword and sound.

In this activity page students will practice writing the lowercase letters t, b, f, using the Foundations writing grid. These are the first three letters introduced in the Wilsons Foundations Kindergarten program. They will also look at pictures, name them, and write the corresponding letter under eac

The ultimate guide for parents who dream of having a little less chaos and a lot more time for the good things in life Written by mother of five, Nicole Avery, this book shows harried parents how, with just a bit of planning, family life can become easier to manage, less stressful, and decidedly more fun. "Dream on," you say? "I might as well try to herd cats as to get my kids to follow a lot of arbitrary rules!" And Nicole would agree, which is why Planning with Kids isn't like any other parenting guide out there. It was inspired by Nicole's blog of the same name, which, over the past three years, has garnered a huge audience of likeminded parents who have achieved nothing short of miraculous results following her advice. While other prescriptive guides offer mums and dads cook-cutter solutions to the challenges of raising kids, this handbook focuses on one simple, straightforward idea: by implementing a few simple strategies for how you do things, you'll make more time for you to be you and your kids to be kids. You'll find strategies for streamlining and enhancing everything from the routines of daily life, to family relationships, to budgeting and finances, playtime and much more! Contains a full section on menus and cooking, including recipes, supported online by a planning-with-family meal planner Divided into sections so that readers can dip-in and dip-out for information as they need it as their family expands and grows up!

Experts know that sometimes the best way to teach a child what something is is to teach him what it isn't. Educator Wendy Ulmer applies that principle in her jaunty, out-of-the-box alphabet A isn't for Fox: An Isn't Alphabet. Running through the alphabet, beginning readers are given a letter and then told what the letter topic isn't. A isn't for box; it isn't for fox. A is for ants that crawl over your socks. Laura Knorr's colorful, engaging artwork perfectly captures the wit and whimsy behind the alphabet that isn't what it seems but is so much more!

An easy and fun approach to teaching your child to read A stand-alone phonics & reading program, flexible for use in either kindergarten or first gradeA workbook filled with lessons, instructions, and suggested hands-on activities for a full semester of studySuggested hands-on activities will utilize materials typically found in the kitchen or playroom (e.g., crayons, markers, flour, rice, play-dough) This unique curriculum will take your student on a journey from the beginning of creation to the Resurrection of Christ as they learn each letter and corresponding sound. Designed to meet the needs of students who are ready to begin writing, as well as those who may not have mastered the hand-eye coordination skills yet that are needed for writing.

What does research tell us about how teachers can most effectively help young students learn to read? In Research-Based Methods of Reading Instruction, Grades K-3, Sharon Vaughn and Sylvia Linan-Thompson explore the research on reading, providing a comprehensive overview of the five core instructional areas and how each affects student achievement: *Phonemic awareness *Phonics and Word Study *Fluency *Vocabulary *Comprehension The authors include dozens of reading activities and lesson plans that teachers can use immediately, all of which have worked in actual classrooms and are grounded in solid research. A glossary and annotated resource lists will help you better understand key reading concepts and find reliable resources, including relevant Web sites. Whether your students have special needs or show no apparent learning difficulties, this book will expand your repertoire of teaching strategies and help you put students on the road to literacy.

Depicts how A was in an avalanche, B was badly bitten, C was cut to ribbons, and the other letters of the alphabet suffered similar mishaps.
