Providing a comprehensive and evidence-based reference guide for those who have a strong and scholarly interest in medical education, the Oxford Textbook of Medical Education contains everything the medical educator needs to know in order to deliver the knowledge, skills, and behaviour that doctors need. The book explicitly states what constitutes best practice and gives an account of the evidence base that corroborates this. Describing the theoretical educational principles that lay the foundations of best practice in medical education, the book gives readers a through grounding in all aspects of this discipline. Contributors to this book come from a variety of different backgrounds, disciplines and locations, producing a book that is truly original and international.

Created in partnership with the Association for the Study of Medical Education (ASME), this completely revised and updated new edition of Understanding Medical Education synthesizes the latest knowledge, evidence and best practice across the continuum of medical education. Written and edited by an international team, this latest edition continues to cover a wide range of subject matter within five broad areas – Foundations, Teaching and Learning, Assessment and Selection, Research and Evaluation, and Faculty and Learners – as well as featuring a wealth of new material, including new chapters on the science of learning, knowledge synthesis, and learner support and well-being. The third edition of Understanding Medical Education: Provides a comprehensive and authoritative resource summarizing the theoretical and academic bases to modern medical education practice Meets the needs of all newcomers to medical education whether undergraduate or postgraduate, including those studying at certificate, diploma or masters level Offers a global perspective on medical education from leading experts from across the world Providing practical guidance and exploring medical education in all its diversity, Understanding Medical Education continues to be an essential resource for both established educators and all those new to the field.

KEY CONTENTS OF THIS GUIDE INCLUDE: - Contains invaluable tips on how to prepare for abstract reasoning tests; - Written by an expert in this field in conjunction with recruitment experts; - Contains lots of sample test questions and answers.

Evidence is increasingly being demanded before education policy in Canada is developed. Unfortunately, all too often education research and policy proposals come from relatively isolated perspectives. This volume arose from a project that brought together a diverse group of stakeholders as part of an ongoing effort to improve communications between relevant groups. The authors focus on aspects of evidenced-based decision-making for education in the Canadian context, providing both survey articles and commentary. Topics include new and innovative provincial initiatives such as "la carte de la

défavorisation au Québec" and the Alberta Initiative for School Improvement (AISI). Major Canadian large-scale testing initiatives including the Third International Math and Science Survey (TIMSS), the national Student Achievement Indicators Program (SAIP), and provincial testing programs are discussed, and selected studies resulting from these programs are presented. Also included are overviews of currently relevant issues such as male-female differences in test scores, high school exit exams, the "causal" impact of education on social assistance use and long-term labour market outcomes, teacher evaluations at universities, and the optimal level of investment in education from an economic perspective. Contributors are from university education faculties and economics departments, provincial government ministries of education and related agencies, school boards, and other related organizations such as the Canadian Teachers' Federation, the Council of Ministers of Education, Conseil Supérieur de l'Éducation au Québec, and Statistics Canada. Reflecting Canada, portions of the book are in French and others are in English.

The General Aptitude and Abilities Series provides functional, intensive test practice and drill in the basic skills and areas common to many civil service, general aptitude or achievement examinations necessary for entrance into schools or occupations. The General Aptitude Test (Battery) Passbook(R) prepares you by sharpening the skills and abilities necessary to succeed in different types of civil-service positions. It provides hundreds of multiple-choice questions that include, but are not limited to: spelling; vocabulary and word meaning; reading comprehension; basic mathematics; graphs, charts and tables; and more.

The Supervisory Test Battery (STB) Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: problem solving; interpersonal skills; human resource management; managerial decisions; staff interaction and management; and more.
