checklist We live in
a world of great
and increasing
complexity, where
even the most
expert
professionals
struggle to master
the tasks they face.
Longer training,
ever more
advanced technolo
gies—neither
seems to prevent

Get Free Get Your Shit

grievous errors. But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots

to fly aircraft of
mind-boggling
sophistication. Now
innovative
checklists are
being adopted in
hospitals around
the world, helping
doctors and nurses
respond to
everything from flu
epidemics to
avalanches. Even
in the immensely

complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half

underwater, to
Michigan, where a
cleanliness
checklist in
intensive care units
virtually eliminated
a type of deadly
hospital infection.
He explains how
checklists actually
work to prompt
striking and
immediate

improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual

Get Free Get Your Shit

adventure in which lives are lost and saved and one simple idea makes a tremendous difference, The Checklist Manifesto is essential reading for anyone working to get things right.
