All you need to know about investing safely and smartly, with new information on the latest options—from cryptocurrencies to social media IPOs—in this comprehensive and updated guide to understanding the current market, setting realistic goals, and achieving financial success. The best time to start investing is now—even as little as a few years can make a difference of hundreds of thousands of dollars by the time retirement comes around. Investing early in your career is the best way to ensure a secure and successful life all the way through retirement. For years, *The Everything Guide to Investing in Your 20s and 30s* has been guiding young professionals on how to capitalize on the investing market and make the most out of their money. This all-new and fully updated edition includes all of the tips, tricks, and investing knowledge while also explaining: —New technological investing options —How the changing political climate affects your money —What the rising interest rates mean —Active investing versus passive investing *The Everything Guide to Investing in Your 20s and 30s* teaches you how to maximize your investing strategy and make your money work for you. Don't wait. Start investing today!

The irreverent guide to investing, Boglehead style *The Boglehead's Guide to Investing* is a DIY handbook that espouses the sage investment wisdom of John C. Bogle. This witty and wonderful book offers contrarian advice that provides the first step on the road to investment success, illustrating how relying on typical "common sense" promoted by Wall Street is destined to leave you poorer. This updated edition includes new information on backdoor Roth IRAs and ETFs as mainstream buy and hold investments, estate taxes and gifting, plus changes to the laws regarding Traditional and Roth IRAs, and 401k and 403b retirement plans. With warnings and principles both precisely accurate and grandly counterintuitive, the Boglehead authors show how beating the market is a zero-sum game. Investing can be simple, but it's certainly not simplistic. Over the course of twenty years, the followers of John C. Bogle have evolved from a loose association of investors to a major force with the largest and most active non-commercial financial forum on the Internet. *The Boglehead's Guide to Investing* brings that communication to you with comprehensive guidance to the investment prowess on display at Bogleheads.org. You'll learn how to craft your own investment strategy using the Bogle-proven methods that have worked for thousands of investors, and how to: Choose a sound financial lifestyle and diversify your portfolio Start early, invest regularly, and know what you're buying Preserve your buying power, keeping costs and taxes low Throw out the "good" advice promoted by Wall Street that leads to investment failure Financial markets are essentially closed systems in which one's gain garners another's loss. Investors looking for a roadmap to successfully navigating these choppy waters long-term will find expert guidance, sound advice, and a little irreverent humor in *The Boglehead's Guide to Investing*.
