Hitler's Scientists is a book by John Cornwell describing scientific life in Germany in the buildup to, during, and after World War II. Detailed is the discrimination and persecution of scientists' groups marginalized by Nazi Germany —such as the Jews, the failed development of a nuclear weapon, the development of rocket technology, and the human experiments performed during World War II.

Hitler's Scientists - Wikipedia

Cornwell, whose last book was Hitler's Pope, takes a hard line against those scientists who stayed and helped the Nazis after Jewish scientists were expelled and Hitler's plans became clear. With the weight of evidence, Cornwell lays flat the various personal reasons the scientists gave for their actions during the war and shows that even before World War I, German scientists had shown themselves willing to subvert laws and morality in pursuit of money and power.

Nazi human experimentation was a series of medical experiments on large numbers of prisoners, including children, by Nazi Germany in its concentration camps in the early to mid 1940s, during World War II and the Holocaust. Chief target populations included Romani, Sinti, ethnic Poles, Soviet POWs, disabled Germans, and Jews from across Europe. Nazi physicians and their assistants forced prisoners into participating; they did not willingly volunteer and no consent was given for the procedures. Ty
