Smith & Wesson, one of largest gun manufacturers in the country, sued New Jersey in federal court Tuesday to stop a subpoena from the state's attorney general which they say was part of an anti-Second Amendment agenda. The Wall Street Journal reported that the October 13 subpoena is a move linked to a widespread push from gun-control advocates to target the firearms industry for its ...

Horace Smith and Daniel Baird Wesson shared a dream of manufacturing a firearm that could fire repeatedly, using a new and self-contained cartridge. In 1852, the dream became a reality with the founding of Smith & Wesson Firearms Company. Over the next 154 years, the company grew to be one of the most innovative and respected firearms manufacturers in the world. The story of Smith & Wesson is not only about two knowledgeable and enterprising men but also the story of generations of creative and dedicated men and women. The spirit of innovation generated by the partners has long outlived them. Today Smith & Wesson is synonymous with quality, performance, and durability. Smith & Wesson explores the company history, its people, and significant products from the partners' first venture in 1852 to

Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific

clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history;

substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

Polydrug Abuse: The Results of a National Collaborative Study reports on the findings of a national study of polydrug users, initiated and organized by the Special Action Office of Drug Abuse Prevention. This book provides a comprehensive demographic, sociological, psychological, and medical study of polydrug cases. The chapters in the text cover the varieties and classification of polydrug abusers; an estimation of the magnitude of polydrug abuse; certain central nervous system consequences to chronic drug use; and the impact of polydrug abuse on physicians and other deliverers of health care. Physicians, epidemiologists, drug enforcers, and government policy makers will find the book interesting.
