The June issue of the IMF Research Bulletin looks at the role of IMF programs and capacity building in fostering structural reforms and the economics of Arab countries undergoing political transitions. The Q&A analyzes the neutral interest rate through the experiences of several Latin American countries. The Research Bulletin also includes its regular features: a listing of IMF Working Papers and Staff Discussion Notes, information on the forthcoming IMF Economic Review and the Fourteenth Jacques Polack Annual Research Conference, and recommended readings from IMF Publications.

examination from 2015.

This Cambridge IGCSE® Mathematics Core and Extended series has been authored to meet the requirements of the Cambridge IGCSE® Mathematics syllabus (0580/0980), for first examination from 2020. This second edition of Cambridge IGCSE® Mathematics Core and Extended Coursebook offers complete coverage of the Cambridge IGCSE Mathematics (0580/0980) syllabus. It contains detailed explanations and clear worked examples, followed by practice exercises to allow students to consolidate the required mathematical skills. The coursebook offers opportunities for checking prior knowledge before starting a new chapter and testing knowledge with end-of-chapter and exam-practice exercises. Core and Extended materials are presented within the same book and are clearly signposted to allow students to see the range of mathematics required for study at this level. Answers are at the back of the book.

This report provides an overview of the work of the European Union Committee in session 2012-13. It highlights some of the key policies examined through scrutiny work and inquiries, reflects on the Committee's work with the EU institutions and other national parliaments, and gives a forward look at the work being undertaken in session 2013-14.

This paper highlights that one of the most dramatic developments in the 20th century was the entry of women into economic and political spheres previously occupied almost exclusively by men. Although women are making progress in eliminating gender disparities, they still lag men in the workplace and in the halls of government. These gaps are found throughout the world, but are particularly pronounced in

developing economies. So far, the greatest success has been in reducing education and health disparities and the least in increasing women ' s economic and political influence.

In 1949, United Nations Constitutional Assistance (UNCA) was conceived to promote the Western liberal constitution. This was colonial trusteeship. However, in 1960, as a step towards decolonization, the United Nations General Assembly rejected internationalized constitution-making, and, by extension, UNCA. All colonies acquired the right to draft their own constitutions without any international assistance. Nonetheless, in the same year, UNCA was revived and since then it has helped over 40 developing sovereign states to adopt the Western liberal constitution, for the aims of building peace, preventing conflict, and promoting good governance in these independent states. This book scrutinizes UNCA and its off-shoot, UN/International Territorial Administration (ITA), including their historical origins and revival from 1960 to 2019. Sripati argues that although the United Nations (UN) uses UNCA to help developing sovereign states secure debt relief, it undertakes UNCA to ' modernize ' them with a view to ' strengthen ' their supposedly weakened sovereignty. By doing so, the UN is seeking these states ' adoption of a Western liberal-style constitution, thus violating their right to self-determination. The book shows how UNCA sires and guides UN (legislative) assistance in all state-sectors: security, judicial, electoral, commercial, parliamentary, public administration, and criminal. Irrespective of UNCA ' s benevolent motivations, such intrusive interventions impose the old forms of domination and perpetuate global inequality.

This edited volume explores development in the so-called 'fragile', 'failed' and 'pariah' states. It examines the literature on both fragile states and their development, and offers eleven case studies on

countries ranking in the 'very high alert' and 'very high warning' categories in the Fund for Peace Failed States Index.

Asian countries are catching up with the West by transforming their primarily agrarian societies into industrial powerhouses. Manufacturing is driving innovation, productivity growth, and higher standards of living for billions of Asians. In the colonial past, the Asian production and supply chains served Western consumers. The world is now poised to evolve, led by a unified Asian business landscape capable of driving sustainable global growth within industries and markets. The Global Rise of Asian Transformation provides insights into the complex process of macro-political and economic dynamics reshaping the business landscape throughout Asia. This edited collection lays bare the megatrends that are challenging the region, including emerging consumers, urbanization, infrastructure, climate change, and energy megatrends that will further bolster the region's world standing if governments and businesses handle them adeptly. Case studies of major international companies, such as Sony, Lenovo, and Tata Motors, are also included.

The Asia Bond Monitor (ABM) reviews recent developments in East Asian local currency bond markets along with the outlook, risks, and policy options. The ABM covers the 10 Association of Southeast Asian Nations member countries plus the People's Republic of China; Hong Kong, China; and the Republic of Korea.
