Knowledge Intensive Business Services (commonly known as KIBS) are services and business operations heavily reliant on professional knowledge. They are mainly concerned with providing knowledge-intensive support for the business processes of other organizations.

Knowledge intensive business services - Wikipedia

Knowledge-intensive business services (KIBS) are offerings supplied to private and public organizations that use knowledge as the primary input (Muller & Doloreux, 2009). Such services tend to be labor-intensive, as employees embody a significant share of this knowledge and providers need to employ a skilled workforce (Morris & Empson, 1998).

Knowledge intensive sectors. The OECD identifies high and medium tech manufacturing; high value added “knowledge intensive” market service industries such as finance and insurance and telecommunications; and business services. The current OECD definition also includes education and health. The Work Foundation has extended this definition in the recent Ideopolis report to capture a higher share of employment in the cultural and creative industries.

What Are The Knowledge Intensive Sectors - TheEducators Co

For knowledge-intensive services (KIS) – as defined by researchers – knowledge is the main production factor and the good they offer. Knowledge-intensive business services (KIBS) build a sub-category of KIS that Strambach (2008: 156) describes by adding the following two points: 1. Cumulative learning arises from in-depth interaction be-

Knowledge-Intensive Business Services: Geography and ...

Collaboration for innovation has long been the norm for services firms (Arundel et al., 2007, Chesbrough, 2011), and especially for knowledge-intensive business services (KIBS) firms, which rely heavily on technical or professional knowledge to solve the problems of their clients (Miles, 2005). Since KIBS firms create knowledge assets regularly and jointly with external partners, they may find value capture even more challenging than firms in other sectors.
