Robert Simons argues that by viewing design as a powerful and proactive management lever--rather than an inevitable outcome of corporate evolution--leaders can maximize productivity across every level of the organization. Levers of Organization Design presents a new design theory based on four key yet often underrated categories: customer definition, critical performance variables, creative tension, and commitment to mission.

Organisation design and organisation development approaches may appear to blur partly due to the way organisation design theory has evolved. While early approaches adopted a mechanistic way of structuring organisations with little consideration to people's behaviours and attitudes, later models considered how people work together.

Design is a continuous commitment, a reiterative process. A design is a solution, which inevitably has to be changed, therefore it is critical to build learning and change ability into the team. Management has to appreciate that organization design toward high performance is a continuous process.

How to Design Your Organization

The structural levels of organization determine the different levels of development in the human body, specifically during their growth during pregnancy. The human body is organized from the lowest form of development, which is marked by conception, to the highest, which is characterized by the body's completed basic development just before birth.
