© UCLES 2010 0610/31/M/J10 For Examiner's Use The yields of tomatoes grown in open fields in India are very low compared with yields of tomatoes grown in glasshouses in Europe. In a study, scientists in India grew tomato plants in glasshouses and in open fields nearby. The growth of the plants and the yields of tomatoes were recorded.

Scientists are considering the use of a genetically  
engineered virus to kill a population of the cane toad,  
*Bufo marinus*, which is growing out of control in  
Australia. This virus will introduce a modified form of  
genetic material, responsible for hormone production.
