Life's that way is actually a direction given to Jim by a friend as he pointed down a corridor, telling him it was time to move on. And, like it or not, that is what Jim had to do, and in the process he took us on his journey--a journey of grieving and of healing, but most importantly, a journey of learning how to move forward.

"Life's That Way is a gift of a book and one that will join Joan Didion's *The Year of Magical Thinking* as a classic exploration of love and grief. It removes the clinical and focuses on the personal, revealing that "there's no end to the new ways one can experience such a cataclysm," and shows that, unbelievable as it is, life does go on.

Rachel Levy Lesser can relive almost every significant life event through an accessory. A scarf, a pair of earrings, a bag, even a fleece pair of socks—each contains the elements that put together the story of a life. Life's Accessories is a funny, sad, touching, relatable, shake-your-head-right-along-as-you-laugh-and-wipe-away-tears, coming-of-age memoir. In fourteen essays, Lesser tackles sensitive issues like anxiety, illness, and loss in a way that feels a bit like having a chat with a good friend. Out of the stories comes solid life—and fashion—advice. About far more than just a hair tie, a bracelet, or a belt, Life's Accessories is a window into the many ways in which Lesser has come to understand life—in all of its beauty, its joys, its sorrows, its heartaches, its challenges, and its absurdity.

shows us that behind the red carpet moments, she is just a girl in pursuit of her dreams.

My book is a story of restoration; it is a memoir of my life, the journey of pain, loss, grief, life's challenges, widowhood, and God's intervention. It is a story of how at a young age my home was destroyed by divorce. My mother left home when I was only thirteen and died when I was eighteen from cancer; she was forty years old. At the time of her death, she was working as a nurse midwife in Saudi Arabia. My siblings and I had to live through the pain of a broken home, a loss of a mother, and the conflicts of three stepmothers. Most of my teenage years were filled with pain, not knowing who I was and not understanding what real happiness was. I married the first man I met to escape from my home; but not too long after my marriage, my husband died in a motor vehicle accident, and I became a widow at the age of twenty-three with a nine-month-old daughter. The African culture is hard on women. I went through the primitive traditions of the widowhood practices. I lost my self-esteem and self-worth, and I did not have the will to live. My life was slipping away, but by the grace of God, someone told me about Jesus, and at that moment I began my journey of transformation, restoration, and change. My book talks about my transition to a new country and how I started a new life, the challenges I encountered, acculturation, the paradigm shifts, the problems of an immigrant, and the return to school to get an education. I talked about how I remarried, what we went through together, and where we are today. I am healed in my emotions to love again, and am walking in restoration. God used my pain and my healing process to open the door for me to help others in their time of grief. I wrote this book dedicated to my mother, to shed light on the havoc of a broken home, the widowhood practices in the African culture, and the unfair treatment of women. I want women to be empowered no matter their religion, ethnicity, social/economic status or race, who may have gone through a similar situation. I want them to keep hope alive, I want to let them know they have a voice, and I want to help women walk into a place of freedom through forgiveness. I want women to understand the depth of God's love and how He can heal and change any situation.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

"[An] often beautiful jewel of a book . . . Black's power as a writer means she can take us with her to places that normally our minds would refuse to go."—The New York Times Book Review (Editors' Choice) From the New York Times bestselling author of *The Still Point of the Turning World* comes an incisive memoir about how she came to question and redefine the concept of resilience after the trauma of her first child's death. "Congratulations on the resurrection of your life," a colleague wrote to Emily Rapp Black when she announced the birth of her second child. The line made Rapp Black pause. Her first child, a boy named Ronan, had died from Tay-Sachs disease before he turned three years old, an experience she wrote about in her second book, *The Still Point of the Turning World*. Since that time, her life had changed utterly: She left the marriage that fractured under the terrible weight of her son's illness, got remarried to a

man who she fell in love with while her son was dying, had a flourishing career, and gave birth to a healthy baby girl. But she rejected the idea that she was leaving her old life behind—that she had, in the manner of the mythical phoenix, risen from the ashes and been reborn into a new story, when she still carried so much of her old story with her. More to the point, she wanted to carry it with her. Everyone she met told her she was resilient, strong, courageous in ways they didn't think they could be. But what did those words mean, really? This book is an attempt to unpack the various notions of resilience that we carry as a culture. Drawing on contemporary psychology, neurology, etymology, literature, art, and self-help, Emily Rapp Black shows how we need a more complex understanding of this concept when applied to stories of loss and healing and overcoming the odds, knowing that we may be asked to rebuild and reimagine our lives at any moment, and often when we least expect it. Interwoven with lyrical, unforgettable personal vignettes from her life as a mother, wife, daughter, friend, and teacher, Rapp Black creates a stunning tapestry that is full of wisdom and insight.

An Entertainment Weekly Best Book of the Year, 2015 For the Marshalls, laughter is the best medicine. Especially when combined with alcohol, pain pills, excessive cursing, sexual escapades, actual medicine, and more alcohol. Meet Dan Marshall. 25, good job, great girlfriend, and living the dream life in sunny Los Angeles without a care in the world. Until his mother calls. And he ignores it, as you usually do when Mom calls. Then she calls again. And again. Dan thought things were going great at home. But it turns out his mom's cancer, which she had battled throughout his childhood with tenacity and a mouth foul enough to make a sailor blush, is back. And to add insult to injury, his loving father has been diagnosed with ALS. Sayonara L.A., Dan is headed home to Salt Lake City, Utah. Never has there been a more reluctant family reunion: His older sister is resentful, having stayed closer to home to bear the brunt of their mother's illness. His younger brother comes to lend a hand, giving up a journalism career and evenings cruising Chicago gay bars. His next younger sister, a sullen teenager, is a rebel with a cause. And his baby sister - through it all - can only think about her beloved dance troop. Dan returns to shouting matches at the dinner table, old flames knocking at the door, and a speech device programmed to help his father communicate that is as crude as the rest of them. But they put their petty differences aside and form Team Terminal, battling their parents' illnesses as best they can, when not otherwise distracted by the chaos that follows them wherever they go. Not even the family cats escape unscathed. As Dan steps into his role as caregiver, wheelchair wrangler, and sibling referee, he watches pieces of his previous life slip away, and comes to realize that the further you stretch the ties that bind, the tighter they hold you together.

A gutting, gorgeous memoir of a pan-African childhood that tracks the author's migrations from the short-lived African nation known as Biafra, to Jamaica, to Los Angeles' harshest streets
