In beautiful free verse, a child ponders the very familiar and what might lie beyond. Every morning, in a little house in a little town in the middle of a big place, a girl waits by the window for a train to go by. And every morning, as the train rushes and rumbles past her window, the girl waves to the engineer and the engineer waves back ñ his wave and her wave together make a home in her heart. The girl is curious about the engineer, about where he came from and where he goes. And this makes her wonder if she might go away, too, some day. A warm, lyrical story about a connection between strangers, and about growing up and making one's way in the world.

A New Yorker writer revisits the seminal book of her youth--Middlemarch--and fashions a singular, involving story of how a passionate attachment to a great work of literature can shape our lives and help us to read our own histories. Rebecca Mead was a young woman in an English coastal town when she first read George Eliot's Middlemarch, regarded by many as the greatest English novel. After gaining admission to Oxford, and moving to the United States to become a journalist, through several love affairs, then marriage and family, Mead read and reread Middlemarch. The novel, which Virginia Woolf famously described as "one of the few English novels written for grown-up people," offered Mead something that modern life and literature did not. In this wise and revealing work of biography, reporting, and memoir, Rebecca Mead leads us into the life that the book made for her, as well as the many lives the novel has led since it was written. Employing a structure that deftly mirrors that of the novel, My Life in Middlemarch takes the themes of Eliot's masterpiece--the complexity of love, the meaning of marriage, the foundations of morality, and the drama of aspiration and failure--and brings them into our world. Offering both a fascinating reading of Eliot's biography and an exploration of the way aspects of Mead's life uncannily echo that of Eliot herself, My Life in Middlemarch is for every ardent lover of literature who cares about why we read books, and how they read us.

What are the challenges architects face when designing dwelling spaces of a limited size? And what can these projects tell us about architecture - and architectural principles - in general? In BIG little house, award-winning architect Donna Kacmar introduces twenty real-life examples of small houses. Each project is under 1,000 square feet (100 square meters) in size and, brought together, the designs reveal an attitude towards materiality, light, enclosure and accommodation which is unique to minimal dwellings. While part of a trend to address growing concerns about minimising consumption and lack of affordable housing, the book demonstrates that small dwellings are not always simply the result of budget constraints but constitute a deliberate design strategy in their own right. Highly illustrated and in full-colour throughout, each example is based on interviews with the original architect and accompanied by detailed floor plans. This ground-breaking, beautifully designed text offers practical guidance to any professional architect or homeowner interested in small scale projects.
