The lab book is not your property but belongs to the university or organisation for which you work and therefore should be professional. Leave out any personal comments and musings, you can always keep an informal thought book that is all your own for such information.

10 Tips For Organizing Your Lab Book - Bitesize Bio

The best, and in the end least painful, method is to take some time at the end of the day to write your logbook. This can also be a chance to gather your thoughts on the bigger perspective of the experiment (i.e. what are the questions you are trying to answer in the small and big pictures) and to plan next steps.

Top Tips to Keeping Your Logbook in Shipshape

Description: This template is useful for those working in a laboratory where records must be kept for academic or commercial purposes. Often times working in the laboratory means scrawling messy notes in a physical book so this template helps to make a laboratory book more organized and digitally searchable. The template features a cover page, hyperlinked table of contents, daily logs of progress
