When Helen Gurley Brown’s Sex and the Single Girlhit bookstores in 1962, the sexual revolution was launched and there was no turning back. Soon came the pill, the end of censorship, the advent of feminism, and the rise of commercial pornography. Our daily lives changed in an unprecedented time of sexual openness and experimentation. Make Love, Not Waris the first serious treatment of the complicated events, ideas, and personalities that drove the sexual revolution forward. Based on first-hand accounts, diaries, interviews, and period research, it traces changes in private lives and public discourse from the fearful fifties to the first tremors of rebellion in the early sixties to the heady heyday of the revolution. Bringing a fresh perspective to the turbulence of these decades, David Allyn argues that the sexual revolutionaries of the ’60s and ’70s, by telling the truth about their own histories and desires, forced all Americans to re-examine the very meaning of freedom. Written with a historian’s attention to nuance and a novelist’s narrative drive, Make Love, Not Waris a provocative, vivid, and thoughtful account of one of the most captivating episodes in American history. Also includes an 8-page insert.

Worship elevates us into God’s presence, renews our spirits, and expresses our deepest love for our Savior. Yet worship can also be a call to arms, a battle cry, a salvo in an ancient spiritual struggle. Acclaimed songwriter Brian Doerksen believes that God is calling us to both love and to battle. To spread peace and wage spiritual warfare. We do this through how we live, how we serve Him, and how we protect and fight for what matters most. For Brian, music was his answer to this provocative call. Now Brian shares the stories and inspirations behind some of today’s most acclaimed songs of worship, including "Come, Now is the Time to Worship," "Hallelujah (Your Love is Amazing)," and "With All My Affection." Brian shares rich truths and insights that informed twelve of his greatest songs, and offers special tips for aspiring songwriters. Readers will be encouraged to wage spiritual war and share His love through a life of radical worship.

Brother against Brother, brings to mind the War Between the States. World War One, was called the War to End All Wars, and the Great War, until the Big One. World War Two. The Forgotten War? Korea. Yet, never to be forgotten is Viet Nam, the Hated War. In spite of cries for peace and love, Viet Nam became the war fought in living rooms across America. The mid 1960’s saw the beginning of changes in attitudes that would trigger social unrest. Two people, one love, separated by time and distance with a despised war on one side, and growing protests to make love, not war on the other. The epistolary War Written Words is in the form of a series of letters exchanged by the characters, Jeff and Beth Madison during his tour of duty in South East Asia, with the exception of the three chapters at the end.

Plugged-In Parenting comes at a time when parents find themselves between a rock and a hard place. They want to protect their children from the increasingly violent and sexualized content of movies, TV, the Internet, and music as well as cyberbullying and obsessive cell phone texting. But they fear that simply “laying down the law” will alienate their kids. Can parents stay connected to the media while staying connected to God and to each other? This book makes a powerful case for teaching kids media discernment, but doesn’t stop there. It shows how to use teachable moments, evidence from research and pop culture, Scripture, questions, parental example, and a written family entertainment constitution to uphold biblical standards without damaging the parent-child relationship.

An extraordinarily visceral collection of posters that represent the progressive protest movements of the twentieth Century. Two of the most recognizable images of twentieth-century art are Pablo Picasso’s “Guernica” and the rather modest mass-produced poster by an unassuming illustrator, Lorraine Schneider “War is Not Healthy for Children and Other Living Things.” From Picasso’s masterpiece to a humble piece of poster art, artists have used their talents to express dissent and to protest against injustice and immorality. As the face of many political movements, posters are essential for fueling recruitment, spreading propaganda, and sustaining morale. Disseminated by governments, political parties, labor unions and other organizations, political posters transcend time and span the entire spectrum of political affiliations and philosophies. Drawing on the celebrated collection in the Tamiment Library’s Poster and Broadside Collection at New York University, Ralph Young has compiled an extraordinarily visceral collection of posters that represent the progressive protest movements of the twentieth Century: labor, civil rights, the Vietnam War, LGBT rights, feminism and other minority rights. Make Art Not War can be enjoyed on aesthetic grounds alone, and also offers fascinating and revealing insights into twentieth century cultural, social and political history.
