Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 12e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this edition is similar to that used in practice. Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet.

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Hospitality management students and professionals responsible for accounting functions at their property, or who aspire to a career in hospitality accounting, will benefit from this textbook. This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a hospitality setting. Chapters reflect new tax laws and the impact of the Sarbanes-Oxley Act, as well as the results of new survey research on updated practices in capital budgeting and leasing. Readers will learn to make effective choices based on the numbers that affect daily operations, develop on-target budgets and control cash flow, reach profit goals with the help of financial reports and other tools, and apply the latest uniform systems of accounts for hotels and restaurants.

The latest volume in the bestselling series In today's business environment, a knowledge of finance and skills in budgeting and financial planning are more important than ever before. Totally updated and revised, this highly anticipated Third Edition provides new information on five such key topics as interpreting financial statements; information technology in finance; planning capital expenditures; information technology and your firm; business valuation, and much more. Top experts in each field explain the basics of cost-volume analysis, forecasts, and budgets, and reveal how to create a winning business plan. Ideal reading for any manager or executive who needs a "refresher course" in finance.
