Abstract. In his very influential book, History and Class Consciousness, Georg Lukács argued that Engels illegitimately extended Marx’ dialectical method beyond the social realm to the realm of nature and in doing so replaced Marx’ dialectical theory of knowledge (in which subject and object are reciprocally transformed) with a contemplative reflection theory (in which subject and object ...

What Engels, unlike Marx, has not enjoyed so far is a critical reading that considers the relationship between different layers of this standard text: authorial, textual, editorial, and interpretational. Informed by a historical hermeneutic, this book questions the elements that structure the debate on the Dialectics of Nature. It analyzes different political and philosophical functions attached to Engels’ text, and relocates the meaning of the term “dialectics” into a more precise ...
