For all courses in maternal and child nursing care in any nursing program. This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that

you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

This essential student resource is designed to help the student master the information presented in *Maternal/Child Nursing Care, 3rd Edition*. Specially designed to parallel material in the book, this helpful study guide is just what you need for in-depth study and review of the most important facts and information on maternity and pediatric nursing. Matching or fill-in-the-blank questions give students the opportunity to test their ability to define all key terms highlighted in the corresponding textbook chapter. A variety of questions (matching, fill-in-the-blank, true/false, short answer, and multiple choice) are used to provide students with ample opportunity to assess their knowledge and comprehension of the information covered in the text. Students are required to apply concepts (Thinking Critically) found in the chapter to solve problems, make decisions concerning care management, and provide responses to patient's questions and concerns. Answers to all questions are provided at the end of this Study Guide. The content reflects what's in the 3rd edition of the text book.

Cowen, University of North Carolina, Greensboro ISBN: 0133046001

Maternal Newborn Nursing Care Plans, Third Edition teaches students and practicing nurses how to assess, plan, provide, and evaluate care for pregnancy, delivery, recovery, abnormal conditions, and newborn care. Featuring more than 65 of the most common and high-risk care plans for nursing care using the nursing process approach, it includes NIC interventions, discussions on collaborative problems, key nursing activities, signs and symptoms, and diagnostic studies. Using a progressive approach, the text begins with generic care plans that address all patient situations regardless of the patient diagnosis or condition before moving on to more complicated and specific care plans.

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.
