clear that they should be meaningful.

Metrics should be less IT-focused, include customer satisfaction and look at outcomes and impacts of processes, rather than just measuring the processes.

ITIL Practitioner: measuring what matters in ITSM | AXELOS

ITIL key performance indicators (KPIs) are a measure of performance that enables organizations to obtain information about many relevant factors such as the effectiveness and efficiency of their processes. The main function of KPIs is to help companies discover better ways to manage and optimize their internal operations.
